### Euro Medium Term Note Programme (the “Programme”)

*This Prospectus (as defined below) relates to the €10,000,000,000 Euro Medium Term Note Programme of SpareBank 1 SMN, SpareBank 1 Nord-Norge and SpareBank 1 Østlandet (each an “Issuer” and together the “Issuers”). This Prospectus does not affect any Notes already issued. This document constitutes three base prospectuses for the purposes of Article 8 of Regulation (EU) 2017/1129 (the “Prospectus Regulation”), (i) the base prospectus for SpareBank 1 SMN, in respect of non-equity securities within the meaning of Article 16 of the Commission Regulation (EU) 2019/980 of 14 March 2019 (the “Notes”) to be issued by SpareBank 1 SMN under the Programme, (ii) the base prospectus for SpareBank 1 Nord-Norge in respect of Notes to be issued by SpareBank 1 Nord-Norge under the Programme and (iii) the base prospectus for SpareBank 1 Østlandet in respect of the Notes to be issued by SpareBank 1 Østlandet under the Programme (together, the “Prospectus”).*

Under the Programme each Issuer may from time to time issue Notes denominated in any currency agreed between the relevant Issuer and the relevant Dealer (as defined below). The Notes of each Issuer will be obligations of that Issuer alone.

As more fully described herein, Notes may be issued (i) on an unsubordinated basis (“Senior Preferred Notes”); (ii) on a non-preferred basis (“Senior Non-Preferred Notes”); or (iii) on a subordinated basis (“Subordinated Notes”), each as provided in “Terms and Conditions of the Notes” herein. The Terms and Conditions of the Notes will contain only very limited event of default provisions and will not contain any negative pledge or cross-default provisions.

The maximum aggregate nominal amount of all Notes from time to time outstanding under the Programme will not exceed €10,000,000,000 (or its equivalent in other currencies calculated as described in the Programme Agreement described herein), subject to increase as described herein.

The Notes may be issued on a continuing basis to one or more of the Dealers specified under “General Description of the Programme” and any additional Dealer appointed under the Programme from time to time by an Issuer (each a “Dealer” and together the “Dealers”), which appointment may be for a specific issue or on an ongoing basis. References in this Prospectus to the “relevant Dealer” shall, in the case of an issue of Notes being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe such Notes.

**An investment in Notes issued under the Programme involves certain risks.** For a discussion of these risks see “Risk Factors”.

This Prospectus has been approved as a base prospectus by the *Commission de Surveillance du Secteur Financier* (the “CSSF”) as competent authority under the Prospectus Regulation. The CSSF only approves this Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Approval by the CSSF should not be considered as an endorsement of the Issuers or of the quality of the Notes. Investors should make their own assessment as to the suitability of investing in the Notes. The CSSF assumes no responsibility for the economic and financial soundness of the transactions contemplated by this Prospectus or the quality or solvency of the Issuers. Application has been made to the Luxembourg Stock Exchange for Notes issued under the Programme to be admitted to trading on the Luxembourg Stock Exchange’s regulated market and to be listed on the Official List of the Luxembourg Stock Exchange. This Prospectus will be available on the website of the Luxembourg Stock Exchange ([www.luxse.com](http://www.luxse.com)) for a period of ten years from the date hereof.

References in this Prospectus to Notes being listed (and all related references) shall mean that such Notes have been admitted to trading on the Luxembourg Stock Exchange’s regulated market and have been admitted to the Official List of the Luxembourg Stock Exchange. The Luxembourg Stock Exchange’s regulated market is a regulated market for the purposes of the Markets in Financial Instruments Directive (Directive 2014/65/EU).

This Prospectus (as supplemented as at the relevant time, if applicable) is valid until 21 June 2025, being 12 months from its date in relation to Notes which are to be admitted to trading on a regulated market in the European Economic Area (the “EEA”). The obligation to supplement this Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Prospectus is no longer valid.

The requirement to publish a prospectus under the Prospectus Regulation only applies to Notes which are to be admitted to trading on a regulated market in the EEA and/or offered to the public in the EEA other than in circumstances where an exemption is available under Article 1(4) and/or 3(2) of the Prospectus Regulation. **References in this Prospectus to Exempt Notes are to Notes for which no prospectus is required to be published under the Prospectus Regulation. The CSSF has neither approved nor reviewed information contained in this Prospectus in connection with Exempt Notes.**

Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and certain other information which is applicable to each Tranche (as defined under “Terms and Conditions of the Notes”) of Notes will (other than in the case of Exempt Notes, as defined above) be set out in a final terms document (the “Final Terms”) which will be filed with the CSSF.

Copies of Final Terms in relation to Notes to be listed on the Luxembourg Stock Exchange will also be published on the website of the Luxembourg Stock Exchange ([www.luxse.com](http://www.luxse.com)). In the case of Exempt Notes, notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and certain other information which is applicable to each Tranche will be set out in a pricing supplement document (the “Pricing Supplement”).

The Programme provides that Notes may be listed or admitted to trading, as the case may be, on such other or further stock exchanges or markets as may be agreed between the relevant Issuer and the relevant Dealer. Each Issuer may also issue unlisted Notes and/or Notes not admitted to trading on any market.

The Notes have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “Securities Act”) or any U.S. State securities laws and may not be offered or sold in the United States or to, or for the account or the benefit of, U.S. persons as defined in Regulation S under the Securities Act unless an exemption from the registration requirements of the Securities Act is available and in accordance with all applicable securities laws of any state of the United States and any other jurisdiction.

SpareBank 1 Nord-Norge has been rated “Aa3” by Moody’s Investors Service Limited (“Moody’s”). SpareBank 1 SMN has been rated “Aa3” by Moody’s. SpareBank 1 Østlandet has been rated “Aa3” by Moody’s. Moody’s is established in the United Kingdom (the “UK”) and is registered in accordance with Regulation (EC) No. 1060/2009 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (the “EUWA”) (the “UK CRA Regulation”). The ratings issued by Moody’s have been endorsed by Moody’s Deutschland GmbH in accordance with Regulation (EC) No. 1060/2009 (as amended) (the “CRA Regulation”). Moody’s Deutschland GmbH is established in the EEA and registered under the CRA Regulation. As such, Moody’s Deutschland GmbH is included in the list of credit rating agencies published by the European Securities and Markets Authority (“ESMA”) on its website (at <https://www.esma.europa.eu/credit-rating-agencies/cra-authorisation>) in accordance with the CRA Regulation.

Notes issued under the Programme may be rated or unrated. Where a Tranche of Notes is rated, such rating will be disclosed in the Final Terms (or Pricing Supplement, in the case of Exempt Notes) and will not necessarily be the same as the rating assigned to the relevant Issuer. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Amounts payable on Floating Rate Notes will be calculated by reference to EURIBOR or CMS Rate as specified in the relevant Final Terms. As at the date of this Prospectus, the administrator of EURIBOR (European Money Markets Institute) is included in ESMA’s register of administrators under Article 36 of Regulation (EU) No. 2016/1011 (the “EU Benchmarks Regulation”) and the administrator of the CMS Rate (ICE Benchmark Administration Limited) (“IBA”) is not included in ESMA’s register of administrators under the EU Benchmarks Regulation. As far as the Issuers are aware, the transitional provisions in Article 51 of the EU Benchmarks Regulation apply, such that the IBA is not currently required to obtain recognition or endorsement, or to benefit from an equivalence decision.

*Subject as provided in the applicable Final Terms, the only persons authorised to use this Prospectus in connection with an offer of Notes are the persons named in the applicable Final Terms as the relevant Dealer or the Managers, as the case may be.*

*This Prospectus is to be read in conjunction with all documents which are deemed to be incorporated in it by reference (see "Documents Incorporated by Reference"). This Prospectus shall be read and construed on the basis that those documents are incorporated and form part of this Prospectus.*

*Other than in relation to the documents which are deemed to be incorporated by reference (see "Documents Incorporated by Reference"), the information on the websites to which this Prospectus refers does not form part of this Prospectus and has not been scrutinised or approved by the CSSF.*

*The Dealers have not independently verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted by the Dealers as to the accuracy or completeness of the information contained or incorporated in this Prospectus or any other information provided by any Issuer in connection with the Programme. No Dealer accepts any liability in relation to the information contained or incorporated by reference in this Prospectus or any other information provided by any Issuer in connection with the Programme.*

*No person is or has been authorised by any Issuer to give any information or to make any representation not contained in or not consistent with this Prospectus or any other information supplied in connection with the Programme or the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by any of the Issuers or any of the Dealers.*

*Neither this Prospectus nor any other information supplied in connection with the Programme or any Notes (i) is intended to provide the basis of any credit or other evaluation or (ii) should be considered as a recommendation by any of the Issuers or any of the Dealers that any recipient of this Prospectus or any other information supplied in connection with the Programme or any Notes should purchase any Notes. Each investor contemplating purchasing any Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of any of the Issuers. Neither this Prospectus nor any other information supplied in connection with the Programme or the issue of any Notes constitutes an offer or invitation by or on behalf of any of the Issuers or any of the Dealers to any person to subscribe for or to purchase any Notes.*

*None of the Arranger, the Dealers or any of their respective affiliates accepts any responsibility for any social, environmental or sustainability assessment of any Notes issued as Green Bonds (as defined in "Use of Proceeds" below) or makes any representation or warranty or gives any assurance as to whether such Notes will meet any investor expectations or requirements regarding such "green", "social", "sustainability" or similar labels. None of the Arranger, the Dealers or any of their respective affiliates have undertaken, nor are they responsible for, any assessment of Green Projects (as defined in the Risk Factor "In respect of any Notes issued with a specific use of proceeds, such as a Green Bond, there can be no assurance that such use of proceeds will be suitable for the investment criteria of an investor"), any verification of whether the Green Projects meet any eligibility criteria set out in the relevant Issuer's Green Bond Framework (as defined in "Use of Proceeds" below) nor are they responsible for the use of proceeds (or amounts equal thereto) for any Notes issued as Green Bonds, nor the impact or monitoring of such use of proceeds or the allocation of the proceeds to particular Green Projects. Each Issuer's Green Bond Framework, the respective second party*

opinion (as referred to in "Use of Proceeds" below) and any public reporting by or on behalf of such Issuer in respect of the application of proceeds will be available on the relevant Issuer's website (see "Use of Proceeds" below) but, for the avoidance of doubt, will not be incorporated by reference into this Prospectus. None of the Arranger, the Dealers or any of their respective affiliates make any representation or assurance as to the suitability or content of such materials, nor are any such materials a recommendation by any Dealer or the Arranger or their respective affiliates to buy, sell or hold any such Notes.

Neither the delivery of this Prospectus nor the offering, sale or delivery of any Notes shall in any circumstances imply that the information contained in it concerning any Issuer is correct at any time subsequent to its date or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. The Dealers expressly do not undertake to review the financial condition or affairs of any Issuer during the life of the Programme or to advise any investor in Notes issued under the Programme of any information coming to their attention.

**IMPORTANT – EEA RETAIL INVESTORS** – If the Final Terms in respect of any Notes (or Pricing Supplement, in the case of Exempt Notes) includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "MiFID II"); or (ii) a customer within the meaning of Directive (EU) 2016/97 (the "Insurance Distribution Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

**IMPORTANT – UK RETAIL INVESTORS** – If the Final Terms in respect of any Notes (or Pricing Supplement, in the case of Exempt Notes) includes a legend entitled "Prohibition of Sales to UK Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the EUWA; or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 ("FSMA") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 in the UK Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "UK PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

**MiFID II product governance / target market** – The Final Terms in respect of any Notes (or Pricing Supplement, in the case of Exempt Notes) may include a legend entitled "MiFID II product governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the Product Governance rules under EU Delegated Directive 2017/593 (the "MiFID Product Governance Rules"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the

*Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MIFID Product Governance Rules.*

**UK MiFIR product governance / target market** – *The Final Terms in respect of any Notes (or Pricing Supplement, in the case of Exempt Notes) may include a legend entitled "UK MiFIR product governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "UK MiFIR Product Governance Rules") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.*

*A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.*

**CRA Regulation** – *In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes in the EEA, unless such ratings are issued by a credit rating agency established in the EEA and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances. Such general restriction will also apply in the case of credit ratings issued by non-EEA credit rating agencies, unless the relevant credit ratings are endorsed by an EEA-registered credit rating agency or the relevant third country rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). The list of registered and certified rating agencies published by ESMA on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list.*

*Investors regulated in the UK are subject to similar restrictions under the UK CRA Regulation. As such, UK regulated investors are required to use for UK regulatory purposes ratings issued by a credit rating agency established in the UK and registered under the UK CRA Regulation. In the case of ratings issued by third country non-UK credit rating agencies, third country credit ratings can either be: (a) endorsed by a UK registered credit rating agency; or (b) issued by a third country credit rating agency that is certified in accordance with the UK CRA Regulation. Note this is subject, in each case, to (a) the relevant UK registration, certification or endorsement, as the case may be, not having been withdrawn or suspended, and (b) transitional provisions that apply in certain circumstances.*

*If the status of the rating agency rating the Notes changes for the purposes of the CRA Regulation or the UK CRA Regulation, relevant regulated investors may no longer be able to use the rating for regulatory purposes in the EEA or the UK, as applicable, and the Notes may have a different regulatory treatment, which may impact the value of the Notes and their liquidity in the secondary market. Certain information with respect to the credit rating agencies and ratings is set out on the cover of this Prospectus.*

**Product Classification pursuant to Section 309B(1)(c) of the Securities and Futures Act of Singapore, as modified or amended from time to time (the "SFA")** – *The Final Terms (or Pricing Supplement, in the case of Exempt Notes) in respect of any Notes may include a legend entitled "Singapore Securities and Futures Act Product Classification" which will state the product classification of the Notes pursuant to section 309B(1)(c) of the SFA. The relevant Issuer will make a determination in relation to each issue about the classification of the Notes being offered for purposes of section 309B(1)(a). Any such legend included on the relevant Final Terms will constitute notice to "relevant persons" for purposes of section 309B(1)(c) of the SFA.*

**Notice to Swiss permitted investors** - *The Notes may not be publicly offered, directly or indirectly, in Switzerland within the meaning of the Swiss Financial Services Act ("FinSA") and no application has or will*

be made to admit the Notes to trading on any trading venue (exchange or multilateral trading facility) in Switzerland. Neither the Prospectus nor any other offering or marketing material relating to the Notes constitutes a prospectus pursuant to the FinSA, and neither the Prospectus nor any other offering or marketing material relating to the Notes may be publicly distributed or otherwise made publicly available in Switzerland. No key information document according to FinSA or any equivalent document under the FinSA has been prepared in relation to the Notes, and, therefore, the Notes may not be offered or recommended to private clients within the meaning of the FinSA in Switzerland.

**Notice to Ontario permitted investors** - The Notes may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the Notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this Prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

#### **PRESENTATION OF OTHER INFORMATION**

All references in this document to "U.S. dollars", "U.S.\$" and "\$" are to United States dollars, all references to "Yen" and "¥" are to Japanese Yen and all references to "NOK" are to Norwegian Kroner. In addition, all references to "Sterling" and "£" refer to pounds sterling and to "euro" and "€" refer to the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty on the Functioning of the European Union, as amended.

Certain figures and percentages included in this Prospectus have been subject to rounding adjustments; accordingly, figures shown in the same category presented in different tables may vary slightly and figures shown as totals in certain tables may not be an arithmetic aggregation of the figures which precede them.

In this Prospectus, unless the contrary intention appears, a reference to a law or a provision of a law is a reference to that law or provision as extended, amended or re-enacted.

#### **STABILISATION**

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Managers(s)) in the applicable Final Terms or Pricing Supplement may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or person(s) acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

## **IMPORTANT INFORMATION RELATING TO THE USE OF THIS PROSPECTUS AND OFFERS OF NOTES GENERALLY**

*This Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. Each Issuer and the Dealers do not represent that this Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by any of the Issuers or the Dealers which is intended to permit a public offering of any Notes or distribution of this document in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Prospectus or any Notes may come must inform themselves about, and observe, any such restrictions on the distribution of this Prospectus and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Prospectus and the offer or sale of Notes in the United States, the EEA, the UK, Belgium, Norway, Singapore and Japan (see “Subscription and Sale”).*

*This Prospectus has been prepared on the basis that any offer of Notes in any Member State of the EEA must be made pursuant to an exemption under the Prospectus Regulation from the requirement to publish a prospectus for offers of Notes. Accordingly any person making or intending to make an offer of Notes in that Member State may only do so in circumstances in which no obligation arises for the relevant Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer. Neither the relevant Issuer nor any Dealer have authorised, nor do they authorise, the making of any offer of Notes in circumstances in which an obligation arises for the relevant Issuer or any Dealer to publish or supplement a prospectus for such offer.*

*The Notes may not be a suitable investment for all investors. Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisers, whether it:*

*(i) has sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;*

*(ii) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;*

*(iii) has sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;*

*(iv) understands thoroughly the terms of the Notes and is familiar with the behaviour of any relevant indices and financial markets; and*

*(v) is able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.*

*Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.*

Floating Rate Notes may also have a maximum interest rate, a minimum interest rate or both.

**Benchmark Replacement:**

In the case of Notes where the applicable Final Terms specify that Condition 4(e) (*Benchmark replacement*) applies, if the relevant Issuer (in consultation with the Agent (or the person specified in the applicable Final Terms as the party responsible for calculating the Rate of Interest and the Interest Amount(s))) determines that a Benchmark Event (as defined in the Terms and Conditions of the Notes) has occurred when any Rate of Interest (or the relevant component part thereof) remains to be determined by reference to an Original Reference Rate, then the relevant Issuer shall use reasonable endeavours to appoint and consult with an Independent Adviser, as soon as reasonably practicable, for the determination (with the relevant Issuer's agreement) of a Successor Rate or, alternatively, if the Independent Adviser and the relevant Issuer agree that there is no Successor Rate, an alternative rate and, in either case, an alternative screen page or source and an Adjustment Spread no later than three Business Days prior to the relevant Interest Determination Date relating to the next succeeding Interest Period.

The relevant Issuer may agree with any Dealer that Exempt Notes may be issued in a form not contemplated by the Terms and Conditions of the Notes, in which event the relevant provisions will be included in the applicable Pricing Supplement.

**Redemption:**

The applicable Final Terms (or, in the case of Exempt Notes, the applicable Pricing Supplement) will indicate the scheduled maturity date (which in the case of Subordinated Notes, must be at least five years after the issue date) and will also indicate either that the relevant Notes cannot be redeemed prior to their stated maturity (other than in the case of Exempt Notes in specified instalments, if applicable, or for taxation reasons, on a Capital Event (in the case of Subordinated Notes), on a MREL Disqualification Event (in the case of Senior Preferred Notes and Senior Non-Preferred Notes where the applicable Final Terms specify that Condition 6(l) applies) or following an Event of Default (in the case of Senior Preferred Notes and Senior Non-Preferred Notes) or that such Notes will be redeemable at the option of the relevant Issuer (which, in respect of Subordinated Notes, may not take place prior to the fifth anniversary of the Issue Date) in each case upon giving not less than 15 nor more than 30 days' irrevocable notice (or such other notice period (if any) as is indicated in the applicable Final Terms) to the Noteholders or the relevant Issuer, as the case may be, on a date or dates specified prior to such stated maturity and at a price or prices and on such other terms as may be agreed between the relevant Issuer and the relevant Dealer.

Unless previously redeemed or purchased and cancelled, each Note which is not an Exempt Note will be redeemed by the relevant Issuer at least at 100 per cent. of its nominal value on its scheduled maturity date.

If a Capital Event occurs, the relevant Issuer shall be entitled to redeem the Subordinated Notes (subject to the prior written permission of the Relevant Regulator).

**Negative Pledge:**

The Notes will not contain a negative pledge provision.

**Events of Default:**

The Notes will contain only very limited events of default provisions and will not contain a cross-default provision.

**Substitution or Variation (if Senior Preferred Notes and Senior Non-Preferred Notes):**

Where the applicable Final Terms specify that Condition 6(n) applies, if at any time a MREL Disqualification Event occurs and is continuing, or in order to ensure the effectiveness and enforceability of Condition 18, the relevant Issuer may, subject to the provisions of Condition 6(j), (if applicable and to the extent so required), either substitute all (but not some only) the relevant Senior Preferred Notes and Senior Non-Preferred Notes for, or vary their terms so that they remain or, as appropriate, become, Qualifying MREL Securities (as defined in Condition 6(n)), as further provided in Condition 6(n).

**Substitution or Variation (if Subordinated Notes):**

Where the applicable Final Terms specify that Condition 6(m) applies, if at any time a Capital Event occurs and is continuing, or in order to ensure the effectiveness and enforceability of Condition 18, the relevant Issuer may, subject to the provisions of Condition 6(j), (to the extent so required), either substitute all (but not some only) the relevant Subordinated Notes for, or vary their terms so that they remain or, as appropriate, become, Qualifying Subordinated Securities (as defined in Condition 6(m)), as further provided in Condition 6(m).

**Status of the Senior Preferred Notes:**

**Status of the Senior Non-Preferred Notes:**

Where the applicable Final Terms specify that the Notes are “Senior Non-Preferred Notes”, the Notes will constitute direct, unconditional and unsecured obligations of the relevant Issuer and rank *pari passu* among themselves and subject as otherwise provided by applicable law from time to time, in the event of a liquidation, dissolution, administration or other winding up of the relevant Issuer, in each case by way of public administration, claims of the holders of Notes and Coupons against the relevant Issuer in respect of or arising under the Notes and Coupons (including any amounts attributable to the Notes and Coupons and any damages awarded for breach of any obligations thereunder) shall rank:

- (i) *pari passu* without any preference among themselves;
- (ii) *pari passu* with claims in respect of Non-Preferred Parity Securities and Statutory Non-Preferred Claims, if any;

**Ratings:**

SpareBank 1 Nord-Norge has been rated “Aa3” by Moody’s. SpareBank 1 SMN has been rated “Aa3” by Moody’s. SpareBank 1 Østlandet has been rated “Aa3” by Moody’s.

*According to Moody’s rating system, the obligations rated ‘Aa’ are judged to be of high quality and are subject to very low credit risk and obligations rated ‘A’ are judged to be upper-medium grade and are subject to low credit risk. The numerical modifier 1 indicates that the obligation ranks in the higher end of its generic rating category and the modifier 3 indicates a ranking in the lower end of that generic rating category.*

## RISK FACTORS

*In purchasing Notes, investors assume the risk that the Issuers may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the relevant Issuer becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuers may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of the occurrence of events outside the Issuers' control. The Issuers have identified in this Prospectus a number of factors which could materially adversely affect their business and ability to make payments due under the Notes. In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.*

*Prospective investors should also read the detailed information set out elsewhere in this Prospectus and reach their own views prior to making any investment decision.*

### RISK FACTORS RELATED TO THE ISSUERS

#### Risks relating to macroeconomic conditions

*Counterparty defaults may lead to the Issuers being unable to satisfy their obligations under the Notes*

Risks arising from changes in credit quality and the recoverability of loans and amounts due from borrowers and other counterparties are inherent in a wide range of the Issuers' businesses. As each Issuer currently conducts the majority of its business in Norway, its performance is influenced by the level and cyclical nature of business activity in Norway which, in turn, is affected by both domestic and international economic factors.

In 2023, the global economy continued to experience high inflation and high interest rates. As a consequence, most central banks continued their monetary tightening policies by increasing their respective policy rates. The Central Bank of Norway (*Norges Bank*) increased its policy rate from 1.50 per cent to 4.50 per cent during 2023.

Inflation may have a negative impact on the activity in the Norwegian economy in general and on the financial situation of the Issuers' customers. Elevated inflation levels have become an issue, both in Norway and globally, with a combination of deglobalisation causing supply chain disruptions, trade tensions and the prospect of trade wars, increased demand, rising commodity prices, labour market challenges and monetary policies contributing to the ongoing pressure. In addition, a price-wage spiral may occur whereby inflation causes workers to demand higher wages to maintain their purchasing power. In turn, higher wages increase the production costs for businesses, who often pass these costs onto consumers in the form of higher prices, perpetuating the cycle of inflation. The increase in inflation over the last couple of years has triggered interest rate increases from the Central Bank of Norway (*Norges Bank*), and if inflation levels increase further or remain at elevated levels, additional interest rate increases may occur. If interest rates and inflation levels continue to rise, and/or borrowers suffer a decline in disposable income (whether in absolute or relative terms), borrowers may default on their payment obligations under their loans, which could result in increased disruptions in repayments of loans, as well as write-downs and losses for the Issuers, which in turn may adversely affect the Issuers' ability to perform their obligations under the Notes.

The April 2024 "*World Economic Outlook*" issued by the International Monetary Fund, indicates that global inflation is forecast to decline steadily during 2024 to return to target levels by 2025. As a consequence, several economies are approaching the point where interest rate cuts could be effected. However, interest rate cuts depend on the global economic outlook continuing to improve, with inflation decreasing and returning to target levels. Even if a sharp economic downturn is avoided, the monetary tightening policies already in force could introduce challenges for businesses going forwards which may result in an increase in the number of bankruptcies. If the Issuers' borrowers suffer a decline in income (whether in absolute terms or relative to their expenses), borrowers may default on their payment obligations under their loans, which in turn may adversely

affect the Issuers' business, result of operations and/or financial condition and consequently their ability to perform their obligations under the Notes.

If borrowers default on secured loans, enforcement actions can be taken by the relevant Issuer in order to realise the value of the collateral securing these loans. If, in the context of an enforcement action, the relevant market in which the mortgage or other form of collateral is established substantially declines, there is a risk that the relevant Issuer may not be able to recover the entire amount of the loan. Any failure to recover the full amount of the loans could jeopardise the relevant Issuer's ability to perform its obligations under the Notes.

*The Issuers have cyclical exposure through loans to the commercial real estate and commodity producing sectors*

The risk related to macroeconomic conditions mentioned above may transmit to the Issuers through their lending portfolios, and in particular to the Issuers' loan exposure to commercial real estate, fisheries and aquaculture. These sectors are significantly impacted by cyclical economic fluctuations, particularly through interest rate changes and commodity market price volatility. In commercial real estate, economic cycles influence property values, rental incomes and yield, and borrowers' ability to service debt. Rising interest rates and economic downturns can decrease property values and increase default risks, affecting the Issuers collateral value and credit risk. Fisheries and aquaculture represent cyclical and commodity exposure through fluctuations in the price of seafood through global demand, environmental conditions, and regulatory changes. These factors can lead to unpredictable cash flows and higher loan default risks, impacting the Issuer's financial health which may adversely impact the Issuers' ability to perform their obligations under the Notes.

*Commercial real estate*

As at 31 March 2024, the Issuers' gross loans related to commercial real estate amounted to 12.8 per cent, 9 per cent and 14.2 per cent., for SpareBank 1 Nord-Norge, SpareBank 1 SMN and SpareBank 1 Østlandet respectively.

The Issuers' commercial real estate portfolios include loans to owners of commercial properties for leasing with long-term contracts such as hotels, retail stores, bars and restaurants, fitness centres, hairdressers and beauty salons.

Norway's annualised core consumer price index ("CPI") approached 6.00 per cent. at the end of 2022 and 5.5 per cent. for 2023, well above the Central Bank of Norway's (*Norges Bank*) target of 2.00 per cent. However, from April 2023 to April 2024, the CPI averaged to 3.6 per cent., closer to the 2.00 per cent. target. To combat inflation and ease the pressure on the economy, the Central Bank of Norway (*Norges Bank*) has gradually raised its policy rate from 0.50 per cent. in 2022 to the current level of 4.50 per cent. which is the highest policy rate level in Norway since 2008. Several years of low interest rates previously led to significant increases in commercial property prices due to rising rental costs and low yield requirements. Now, the commercial real estate segment faces a costlier environment, resulting in wider yields for commercial real estate assets. Additionally, increased interest rates may lead to a decreased debt service capacity of financed properties and increased refinancing risks, leading to wider credit spreads. This could lead to a substantial decrease in the market value and increased impairments and losses for the Issuers within their real estate portfolios.

The costlier environment that commercial real estate tenants are operating in may adversely affect the ability of such tenants to pay rent. Combined with the increased cost of electricity and interest rates payments, commercial real estate tenants may face challenges to repay their loans going forwards. Increased disruptions in the payment of rent from tenants will result in reduced revenue for the lessors, which in turn could result in disruptions in payment obligations under loans provided by the relevant Issuer. Disruptions in repayments of loans, as well as write-downs and losses for the relevant Issuer may in turn jeopardise the Issuers' ability to perform their obligations under the Notes.

### *Residential real estate*

As at 31 March 2024, of the Issuers' gross loans related to residential real estate represented 64 per cent., 67 per cent. and 70.9 per cent., for SpareBank 1 Nord-Norge, SpareBank 1 SMN and SpareBank 1 Østlandet respectively.

The Issuers provide mortgage lending in the retail market. A significant decline in the value of residential real estate could significantly reduce the value of the collateral for such loans. If accompanied by deterioration in market conditions and/or higher unemployment this could result in difficulties for the Issuers' customers in meeting their payment obligations, which in turn could lead to increased disruptions in repayments of loans, as well as write-downs and losses for the Issuers, which may jeopardise the Issuers' ability to perform their obligations under the Notes.

### *Fisheries and aquaculture*

As at 31 March 2024, 10.3 per cent of SpareBank 1 Nord-Norge's and 4.0 per cent. of SpareBank 1 SMN's total gross loans were related to fisheries and aquaculture.

The Norwegian Kroner exchange rate against major currencies has weakened during 2023 and the first quarter of 2024 compared to previous levels, leading to increased profits among exporters of fish from Norway as most sell their products in EUR and USD, and have their operating costs in NOK. However, a material strengthening of the Norwegian Kroner during 2024 may lead to lower profits and therefore a worsening in their creditworthiness. In the case of a recession, there is a risk of reduction in the demand for fish as consumers restrict their spending habits, which could result in a material adverse effect on the cash flows of the companies operating within the seafood industry. This could have a significant impact on such companies' profitability and, consequently, on their respective credit quality, thus leading to a material increase in impairments and/or losses experienced by SpareBank 1 Nord-Norge and SpareBank 1 SMN within this sector.

## **Business Risks**

*The Issuers' business is sensitive to volatility in interest rates and to changes in the competitive environment affecting spreads on their lending and funding costs including deposits*

Changes in interest rate levels, yield curves and spreads may affect the Issuers' lending and deposit spreads. The Issuers are exposed to changes in the spread between the interest rates payable on their funding (including deposits) and the interest rates that they charge on loans to customers. Although both the Issuers' deposit rates and the interest rates that they charge on loans to customers are mainly floating rates, there is a risk that each Issuer will not be able to reprice its floating rate assets and liabilities at the same time, giving rise to repricing gaps in the short or medium term.

Deposits represent one of the Issuers' main sources of funding. The Issuers are subject to competition for customer deposits and the current high interest rate environment in recent years has heightened customers' awareness of the interest rate on their deposit, putting pressure on the Issuers' deposit spreads. Interest rates on deposits are sensitive to several factors that are outside of the Issuers' control, including fiscal and monetary policies of governments and central banks, as well as domestic and international political conditions. If interest rates are either further increased or remain at high levels for longer than previously anticipated, that could reduce the demand for credit, as well as contribute to an increase in defaults by the Issuers' customers. Conversely, a reduction in the interest rates may adversely affect the Issuers through, among other things, a decrease in demand for deposits and increased competition in respect of deposit rates and interest rates on loans to customers, which in turn could adversely affect the Issuers' funding costs and the Issuers' ability to pay amounts due under the Notes.

*The Issuers may not be able to obtain funding in the securities market on commercially reasonable terms or at all*

Prior to the increase in inflation and interest levels in recent years, several years of low interest rates and generally good access to credit increased the debt levels of Norwegian households and non-financial enterprises in Norway and globally. Such increase in indebtedness levels causes vulnerabilities within economies and increases the risk for financial instability. In September 2023 the three European Supervisory Authorities (EBA, EIOPA, and ESMA) issued a report warning national supervisors of financial stability risks stemming from heightened uncertainty in the European economy and called for vigilance from all financial market participants. Increased financial instability could make the financial market difficult to access for the Issuers and lead to challenges in accessing financing on commercially attractive terms, which in turn could adversely impact the ability of the Issuers to refinance their outstanding debt and to meet their obligations under the Notes.

Due to changes in customer savings behaviour and relatively high credit demand, the Issuers are dependent on other sources of capital than deposits, such as loans in the Norwegian and international securities market. The Russian invasion of Ukraine in late February 2022 caused a significant increase in credit spreads on senior unsecured financing. Even though credit spreads remained elevated through 2022 and 2023 compared to previous years, the credit market in both the Eurozone and in Norway operated relatively well. However, if the war in Ukraine were to escalate further or other armed conflicts emerge (or escalate), this could disrupt the global economy and cause credit markets to dry up, leaving the Issuers unable to access wholesale funding on commercially attractive terms or at all. This could in turn adversely impact the Issuers' ability to pay amounts due under the Notes.

Credit ratings affect the costs and other terms upon which the Issuers are able to obtain funding in the securities market. Any factors having a negative impact on the Issuers such as a downturn in the international or domestic financial markets, may affect the credit rating of the Issuers, the Programme and/or any outstanding Notes. A credit rating downgrade will not in itself have any impact on the Issuers' ability to perform their obligations under the Notes, but could, in each case, increase the Issuers' borrowing costs, adversely affect the liquidity position of the Issuers, limit the Issuers' access to the capital markets, undermine confidence in (and the competitive position of) the Issuers, and/or limit the range of counterparties willing to enter into transactions with the Issuers. Any of these events may lead to difficulties for the Issuers in obtaining funding on commercially reasonable terms.

*The Issuers are increasingly dependent on information technology systems, which may fail, may not be adequate to the tasks at hand or may no longer be available.*

Banks and their activities are increasingly dependent on highly sophisticated information and communication technology ("ICT") systems, including a significant shift away from physical bank branches and towards greater reliance on internet websites and the development and use of new applications on smartphones. ICT systems are vulnerable to a number of problems, such as software or hardware malfunctions, malicious hacking, physical damage to vital ICT centres and computer viruses. ICT systems need regular upgrading to meet the needs of changing business and regulatory requirements and to keep pace with possible expansion into new markets and the greater use, development and reliance on information and communication technology more broadly. The Issuers may not be able to implement necessary upgrades on a timely basis, and upgrades may fail to function as planned.

In addition to costs that may be incurred as a result of any failure of their ICT systems or technical issues associated with, as well as the general cost of, upgrading their ICT systems, there is a risk that the Issuers could face liability for losses due to ICT system failures.

The Issuers' operations are subject to a number of laws and regulations relating to data privacy and protection, including the Norwegian Personal Data Act of 15 June 2018 (*lov 15. Juni 2018 nr. 38 om behandling av personopplysninger (personopplysningsloven)*) and Regulation (EU) 2016/679 (General Data Protection Regulation). The secure transmission of confidential information over the internet and the security of the Issuers' systems are essential to maintaining customer confidence and ensuring compliance with data

privacy legislation. If the Issuers, or any third party suppliers fails to transmit customer information and payment details online securely, or if they otherwise fail to protect customer privacy in online transactions, or if third parties obtain and/or reveal the Issuers' confidential information, the Issuers may lose customers and potential customers may be deterred from using the Issuers' products and services, which could expose the Issuers to liability (including substantial fines) and could have a material adverse effect on their business, financial condition and results of operations.

The Issuers have to a large extent outsourced the maintenance and operation of their ICT systems to third party vendors. If such third party vendors are unwilling or unable to fulfil their obligations under the relevant outsourcing contract, the Issuers' ICT systems may be adversely affected. In particular, the Issuers and their customers have in the past been, and may in the future become, affected by network problems, which relate to third-party suppliers, and which have affected and might affect in the future certain of the Issuers' internet banking, mobile app and cash machine functions, resulting in service interruptions. A major disruption to the Issuers' ICT systems, whether due to the scenarios outlined above or otherwise, could have a material adverse effect on the normal operation of the Issuers' business and thus on their financial condition and the results of their operations.

### *Cybercrime*

The Issuers' activities have been, and are expected to continue to be, subject to an increasing risk of ICT crime and cyberattacks in the form of Trojan attacks and denial of service attacks, the nature of which is continually evolving. The Norwegian Police Security Service publishes an annual National Threat Assessment Report where it describes current and anticipated threats facing the Norwegian society. In the report for 2024, the Russian intelligence service is highlighted as the greatest threat, and the report further indicates that Norwegian organisations and businesses are likely to encounter cyber operations conducted by foreign state actors. Within the cyber space, the report identifies Russia and China as the two most hostile actors targeting Norway in the cyber domain. The threat of cybercrime also extends to the Issuers' internet bank users and includes the potential for unauthorised access to privileged and sensitive customer information, including internet bank credentials as well as account and credit card information. The Issuers may experience security breaches or unexpected disruptions to their systems and services in the future, which could in turn, result in liabilities or losses to the Issuers, their customers and/or third parties and have an adverse effect on the Issuers' business, reputation and results of their operations.

### *The Issuers are dependent on contribution from joint ventures within the SpareBank 1 Alliance*

The Issuers hold shares in SpareBank 1 Gruppen AS, which comprises the SpareBank 1 Alliance's joint ventures within insurance, fund management, claims management and collection. The Issuers' contribution from the joint ventures depends on the profit margin of these companies. For the first quarter of 2024, the SpareBank 1 Gruppen AS recorded a profit after tax of NOK 271 million. Any significant deterioration in the Issuers' revenues due to losses in the joint ventures could have a material adverse effect on the Issuers' financial conditions, which in turn could have an adverse effect on the Issuers' ability to pay amounts due under the Notes.

### *The Issuers are part of the SpareBank 1 Alliance and are dependent on the SpareBank 1 brand*

The Issuers are part of the SpareBank 1 Alliance. The SpareBank 1 brand is a well-recognised financial services brand in Norway. The business model of the SpareBank 1 banks benefits from a high degree of physical presence within the regions of Norway in which the SpareBank 1 Alliance operates. Possible future decisions by the SpareBank 1 Alliance concerning its business model and the selection of services and products offered by the members of the SpareBank 1 Alliance may have a negative effect on the SpareBank 1 brand, which in turn could result in the Issuers losing market share within the regions they operate and thus suffer reduced revenues. Any significant deterioration in the Issuers' revenues due to negative effects on the SpareBank 1 brand could have a material adverse effect on the Issuers' financial conditions, which in turn could have an adverse effect on the Issuers' ability to pay amounts due under the Notes.

*Failure in compliance with anti-money laundering, anti-bribery and sanctions rules:*

The Issuers' compliance risk management systems and policies may not be fully effective in preventing all violations of laws, regulations and rules. Monitoring compliance with anti-money laundering, anti-bribery and sanctions rules can put a significant financial burden on financial institutions and requires significant technical capabilities. Any failure by the Issuers to comply with applicable laws and regulations, including those relating to money laundering, bribery, financial crimes, sanctions and other inappropriate or illegal transactions, may lead to penalties, fines, public reprimands, damage to reputation, issuance of administrative orders, enforced suspension of operations or, in extreme cases, withdrawal of an Issuer's authorisation to operate its current business. These consequences may harm the Issuers' reputation, cause a loss of customer or market confidence in the Issuers and result in significant, direct financial losses for the Issuers, all of which can adversely affect the Issuers' ability to pay amounts due under the Notes.

## **RISK FACTORS RELATED TO THE NOTES**

### **Risks related to the structure of a particular issue of Notes**

*Notes may be subject to loss absorption on any application of the general bail-in tool or at the point of non-viability of the Issuer*

Directive 2014/59/EU providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms (the "Bank Recovery and Resolution Directive" or "BRRD") has been implemented in Norway through amendments to chapter 20 of the Financial Undertakings Act which took effect on 1 January 2019. The implementing legislation grants authority to the Financial Supervisory Authority of Norway (the "FSAN") to implement detailed requirements and supplementary regulations in its capacity as resolution authority.

Each Issuer is a Norwegian bank and accordingly falls within the scope of the BRRD as implemented in Norway. The bankruptcy, composition, insolvency or administrative procedures to which a bank such as the relevant Issuer could be subject under the laws of Norway, are either: (i) resolution pursuant to the tools provided for under the BRRD; or (ii) winding up by way of public administration as further set out in Chapter 20 of the Financial Undertakings Act.

The BRRD is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing relevant entity. This is to ensure the continuity of the relevant entity's critical financial and economic functions, while minimising the impact of a relevant entity's failure on the economy and financial system.

The BRRD contains four resolution tools and powers which may be used alone or in combination where the relevant resolution authority considers that (a) a relevant entity is failing or likely to fail, (b) there is no reasonable prospect that any alternative private sector measures would prevent the failure of such relevant entity within a reasonable timeframe, and (c) a resolution action is in the public interest: (i) sale of business – which enables resolution authorities to direct the sale of the relevant entity or the whole or part of its business on commercial terms; (ii) bridge institution – which enables resolution authorities to transfer all or part of the business of the relevant entity to a "bridge institution" (an entity created for this purpose that is wholly or partially in public control), which may limit the capacity of the relevant entity to meet its repayment obligations; (iii) asset separation – which enables resolution authorities to transfer impaired or problem assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down (this can be used together with another resolution tool only); and (iv) bail-in – which gives resolution authorities the power to write down certain claims of unsecured creditors of a failing relevant entity (which write-down may result in the reduction of such claims to zero) and to convert certain unsecured debt claims (including Notes) to equity or other instruments of ownership (the "general bail-in tool"), which equity or other instruments could also be subject to any future cancellation, transfer or dilution.

The BRRD also provides for a Member State as a last resort, after having assessed and exploited the above resolution tools to the maximum extent possible whilst maintaining financial stability, to be able to provide extraordinary public financial support through additional financial stabilisation tools. These consist of the public equity support and temporary public ownership tools. Any such extraordinary financial support must be provided in accordance with the EU state aid framework.

A relevant entity will be considered as failing or likely to fail when) it is, or is likely in the near future to be, in breach of its requirements for continuing authorisation, its assets are, or are likely in the near future to be, less than its liabilities, it is, or is likely in the near future to be, unable to pay its debts as they fall due or it requires extraordinary public financial support (except in limited circumstances).

If the Issuer becomes subject to resolution as provided for in the BRRD, the holders of the Notes may be subject to the application of the general bail-in tool, which may result in such holders losing some or all of their investment. Such application could also involve modifications, including alteration of the principal amount or any interest payable on the Notes, the maturity date or any other dates on which payments may be due, as well as the suspension of payments for a certain period, to or the disapplication of provisions in, the Terms and Conditions of the Notes. As a result, the exercise of any power under the BRRD as implemented in Norway or any suggestion of such exercise could materially adversely affect the rights of Noteholders, the price or value of their investment in any Notes and/or the ability of the Issuer to satisfy its obligations under any Notes.

Any application of the general bail-in tool and, in the case of Subordinated Notes, non-viability loss absorption, under the BRRD shall be in accordance with the hierarchy of claims in normal insolvency proceedings. Accordingly, the impact of such application on holders of Notes will depend on their ranking in accordance with such hierarchy, including any priority given to other creditors such as depositors.

To the extent any resulting treatment of holders of Notes pursuant to the exercise of the general bail-in tool is less favourable than would have been the case under such hierarchy in normal insolvency proceedings, a holder has a right to compensation under the BRRD based on an independent valuation of the relevant entity (which is referred to as the “no creditor worse off safeguard” under the BRRD). Any such compensation is unlikely to compensate that holder for the losses it has actually incurred and there is likely to be a considerable delay in the recovery of such compensation. Compensation payments (if any) are also likely to be made considerably later than when amounts may otherwise have been due under the Notes. In the event that Subordinated Notes are subject to the application of non-viability loss absorption, compensation (if any) would only be in the form of equity.

In addition to the general bail-in tool, the BRRD provides for resolution authorities to have the further power to permanently write down or convert into equity capital instruments (such as the Subordinated Notes) at the point of non-viability and before any other resolution action is taken (non-viability loss absorption). The Banking Reform Package (as defined below) extends the scope of non-viability of loss absorption powers to certain eligible liabilities (see “*Changes in capital adequacy and liquidity requirements may adversely affect the Issuers’ results of operations or financial condition*”). Any shares issued to holders of the Subordinated Notes upon any such conversion into equity may also be subject to any application of the general bail-in tool and/or other resolution powers as outlined above.

For the purposes of the application of any non-viability loss absorption measure, the point of non-viability under the BRRD is the point at which: (i) the relevant authority determines that the institution meets the conditions for resolution (but no resolution action has yet been taken) or in the near future is expected to meet such conditions; or (ii) extraordinary public financial support is required by the institution or its group other than for the purposes of remedying a serious disturbance in the economy of a Member State and to preserve financial stability; and (iii) the relevant authority determines that the institution or its group will no longer be viable unless the relevant capital instruments (such as the Subordinated Notes) are written down or converted.

In addition to becoming subject to the general bail-in tool, holders of Subordinated Notes may accordingly be subject to write-down or conversion into equity as a result of the non-viability loss absorption rules, which may result in such holders losing some or all of their investment.

Under the BRRD, there is a requirement for EU financial institutions to hold certain minimum levels of own funds and other eligible liabilities (“MREL”) which would be available to be written down or bailed-in in order to facilitate the rescue or resolution of a failing bank. Commission Delegated Regulation (EU) 2016/1450 of 23 May 2016 sets forth regulatory technical standards specifying the criteria relating to the methodology for setting the minimum requirement for own funds and eligible liabilities.

In December 2023, the FSAN set MREL requirements for the Issuers, which is set at a percentage of the respective Issuer’s adjusted risk weighted assets from time to time. As per paragraph 4 of Article 128 of the Capital Requirements Directive, an Issuer shall not use Common Equity Tier 1 (“CET1”) capital that is maintained to meet its combined buffer requirement (“CBR”) to meet its risk-weighted MREL requirement. Accordingly, each Issuer’s effective MREL requirement constitutes a higher percentage of such Issuer’s adjusted risk-weighted assets, which equals the sum of the MREL requirement and the CBR. Future changes to the CBR will automatically be reflected in and affect the Issuers’ effective MREL requirements.

Each Issuer’s MREL requirement and effective MREL requirement respectively at the date of this Prospectus, are set out below:

- (i) SpareBank 1 SMN: 27.80 per cent. / 37.30 per cent.;
- (ii) SpareBank 1 Østlandet: 26.80 per cent. / 36.30 per cent.; and
- (iii) SpareBank 1 Nord-Norge: 25.75 per cent. / 35.20 per cent.

The MREL requirements determined by the FSAN must be met with MREL qualifying instruments, of which a certain percentage shall be subordinated liabilities. MREL qualifying instruments are instruments that qualify as eligible liabilities instruments under the BRRD and Regulation (EU) 575/2013 (the “Capital Requirements Regulation”, “CRR”) (as amended from time to time). The subordination requirement equals 2 x the minimum capital requirement in Pillar 1 + 2 x the Pillar 2 requirement + the CBR. CET1 capital that is maintained to meet the CBR may also be used to meet the subordination requirement. Noteholders should be aware that Notes may be liable to bail-in and Noteholders may lose all or some of their investment in any Notes that are bailed-in.

*Senior Non-Preferred Notes rank junior to the relevant Issuer’s unsubordinated creditors and, if the EU Commission’s CMDI proposal is adopted and transposed into Norwegian law, the Senior Preferred Notes would rank junior to all of the Issuer’s depositors. An investor in Senior Non-Preferred Notes assumes an enhanced risk of loss in the event of the Issuer’s insolvency.*

The relevant Issuer’s obligations under Senior Non-Preferred Notes will rank (i) *pari passu* with the rights and claims of holders of all other Senior Non-Preferred Notes; (ii) *pari passu* with claims in respect of Non-Preferred Parity Securities and Statutory Non-Preferred Claims, if any; and (iii) in priority to claims in respect of Non-Preferred Junior Securities; and (iv) junior to any present or future claims of Senior Creditors.

If, on a winding up of the relevant Issuer, the assets of the Issuer are insufficient to enable the Issuer to repay the claims of the more senior-ranking creditors in full, the Noteholders will lose their entire investment in the Senior Non- Preferred Notes. If there are sufficient assets to enable the Issuer to pay the claims of senior-ranking creditors in full but insufficient assets to enable it to pay claims in respect of its obligations in respect of the Senior Non- Preferred Notes and all other claims that rank *pari passu* with the Senior Non-Preferred Notes, Noteholders will lose some (which may be substantially all) of their investment in the Senior Non-Preferred Notes. Although Senior Non-Preferred Notes may pay a higher rate of interest than Senior Preferred Notes or other liabilities of the relevant Issuer which rank in priority to Senior Non-Preferred Notes, an investor in Senior Non-Preferred Notes may lose all or some of their investment should the relevant Issuer become insolvent or should the relevant Issuer or the Notes become subject to the actions described in the risk factor

entitled “Notes may be subject to loss absorption on any application of the general bail-in tool or at the point of non-viability of the Issuer” above.

Holders of Senior Preferred Notes currently rank *pari passu* with depositors of the relevant Issuer (other than in respect of preferred and covered deposits). On 18 April 2023, the European Commission adopted a proposal to adjust and further strengthen the EU’s existing bank crisis management and deposit insurance (“CMDI”) framework. If implemented in the EU as proposed and subsequently transposed into Norwegian law as part of the EEA Agreement, one element of the proposal would mean that Senior Preferred Notes will no longer rank *pari passu* with any deposits of the relevant Issuer; instead, the Senior Preferred Notes will rank junior in right of payment to the claims of all depositors. As such, there may be an increased risk to an investor in Senior Preferred Notes of losing all or some of their investment. The proposal, if implemented in Norway, may also lead to a rating downgrade of Senior Preferred Notes.

*The qualification of the Senior Non-Preferred Notes and Senior Preferred Notes as “eligible liabilities” is subject to uncertainty*

The Senior Non-Preferred Notes and Senior Preferred Notes are intended to be MREL Eligible Liabilities which are available to meet any MREL Requirement (however called or defined by the Applicable MREL Regulations then applicable) of the relevant Issuer. However, if the Applicable MREL Regulations were to change after a series of such Senior Non-Preferred Notes or Senior Preferred Notes were issued, the relevant Issuer cannot provide any assurance that such Notes will be (or thereafter remain) MREL Eligible Liabilities. There is therefore a risk that a MREL Disqualification Event (as defined in the Terms and Conditions of the Notes) may occur.

Upon the occurrence of a MREL Disqualification Event, the relevant Issuer may, at its option but subject to Condition 6(j) (if applicable), (i) where the applicable Final Terms specify Condition 6(l) to be applicable, redeem all (but not some only) of such Series of Notes and (ii) where the applicable Final Terms specify Condition 6(n) to be applicable, either substitute all (but not some only) of such Series of Notes for, or vary the terms of such Series of Notes so that they remain or, as appropriate, become Qualifying MREL Securities. See “Senior Non-Preferred Notes and Senior Preferred Notes: MREL Disqualification Event Redemption” and “In certain circumstances, the relevant Issuer can substitute or vary the terms of the Notes” for a description of the risks related to an early redemption of Notes or the substitution or variation, as the case may be, of Notes.

*Senior Non-Preferred Notes and Senior Preferred Notes: MREL Disqualification Event Redemption*

Where the applicable Final Terms state that Condition 6(l) applies, if a MREL Disqualification Event occurs, the relevant Issuer may, at its option, but subject to obtaining the prior written permission of the Relevant Regulator (if applicable), on giving not less than 15 nor more than 30 days’ notice (or, if applicable, such other minimum period and maximum period of notice as specified in the applicable Final Terms or, as the case may be, the applicable Pricing Supplement) to the Agent and, in accordance with Condition 13, the Noteholders (which notice shall be irrevocable), as further provided in Condition 6(l), redeem all (but not some only) of the outstanding Notes comprising the relevant Series at the amount specified in the applicable Final Terms, together (if appropriate) with interest accrued to (but excluding) the date of redemption.

During any period when the relevant Issuer may, or is perceived to be able to, elect to redeem Notes, the market value of such Notes generally will not rise substantially above and may in fact decrease below the price at which they can be redeemed. This may also be true prior to any redemption period.

There can be no assurance that holders of such Notes will be able to reinvest the amounts received upon redemption at a rate that will provide the same rate of return as their investments in such Notes, as the case may be.

*The relevant Issuer's obligations under Subordinated Notes are subordinated and investors in Subordinated Notes assume an enhanced risk of loss in the event of the Issuer's insolvency*

The relevant Issuer's obligations under Subordinated Notes will be unsecured and subordinated and will rank junior in priority of payment to the claims of more senior ranking creditors of the relevant Issuer (such as the Senior Preferred Noteholders and Senior Non-Preferred Noteholders).

Although Subordinated Notes may pay a higher rate of interest than comparable Notes which are not subordinated, there is a real risk that an investor in Subordinated Notes will lose all or some of their investment should the relevant Issuer become insolvent or should the relevant Issuer or the Notes become subject to the actions described in the risk factor entitled "*Notes may be subject to loss absorption on any application of the general bail-in tool or at the point of non-viability of the Issuer*" above.

If, on a winding up of the relevant Issuer, the assets of the Issuer are insufficient to enable the Issuer to repay the claims of the more senior-ranking creditors in full, the Noteholders will lose their entire investment in the Subordinated Notes. If there are sufficient assets to enable the Issuer to pay the claims of senior-ranking creditors in full but insufficient assets to enable it to pay claims in respect of its obligations in respect of the Subordinated Notes and all other claims that rank *pari passu* with the Subordinated Notes, Noteholders will lose some (which may be substantially all) of their investment in the Subordinated Notes.

There is no restriction on the amount of securities or other liabilities that the relevant Issuer may issue, incur or guarantee and which rank senior to, or *pari passu* with, the Subordinated Notes. The issue or guaranteeing of any such securities or the incurrence of any such other liabilities may reduce the amount (if any) recoverable by Noteholders during a winding up of the Issuer and may limit the Issuer's ability to meet its obligations under the Subordinated Notes.

#### *Subordinated Notes: Capital Event Redemption*

If a Capital Event (as defined in the Terms and Conditions of the Notes) occurs, the relevant Issuer may, at its option, but subject to obtaining the prior written permission of the Relevant Regulator (if applicable), on giving not less than 15 nor more than 30 days' notice (or, if applicable, such other minimum period and maximum period of notice as specified in the applicable Final Terms or, as the case may be, the applicable Pricing Supplement) to the Agent and, in accordance with Condition 13, the Noteholders (which notice shall be irrevocable), as further provided in Condition 6(k), redeem all (but not some only) of the outstanding Notes comprising the relevant Series at the amount specified in the applicable Final Terms, together (if appropriate) with interest accrued to (but excluding) the date of redemption.

During any period when the Issuer may, or is perceived to be able to, elect to redeem Notes, the market value of such Notes generally will not rise substantially above and may in fact decrease below the price at which they can be redeemed. This may also be true prior to any redemption period.

There can be no assurance that holders of Subordinated Notes will be able to reinvest the amounts received upon redemption at a rate that will provide the same rate of return as their investments in the Subordinated Notes, as the case may be.

*If the relevant Issuer has the right to redeem any Notes at its option, this may limit the market value of the Notes concerned and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return.*

An optional redemption feature is likely to limit the market value of Notes. During any period when an Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The relevant Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be

able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

*If the Notes include a feature to convert the interest basis from a fixed rate to a floating rate, or vice versa, this may affect the secondary market and the market value of the Notes concerned.*

Fixed/Floating Rate Notes are Notes which bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Such a feature to convert the interest basis, and any conversion of the interest basis, may affect the secondary market in, and the market value of, such Notes as the change of interest basis may result in a lower interest return for Noteholders. Where the Notes convert from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. Where the Notes convert from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on those Notes and could affect the market value of an investment in the relevant Notes.

*Substitution and variation of Subordinated Notes, Senior Non-Preferred Notes and Senior Preferred Notes without Noteholder consent*

Where the applicable Final Terms specify that Condition 6(m) (in the case of Subordinated Notes) or Condition 6(n) (in the case of Senior Preferred Notes and Senior Non-Preferred Notes) applies, if at any time a Capital Event (in the case of Subordinated Notes) or a MREL Disqualification Event (in the case of Senior Preferred Notes and Senior Non-Preferred Notes) occurs or in order to ensure the effectiveness and enforceability of Condition 18, the relevant Issuer may, subject to obtaining the prior written permission of the Relevant Regulator (if applicable), (without any requirement for the consent or approval of the relevant Noteholders) either substitute all (but not some only) of the relevant Notes, as the case may be, for, or vary the terms of the relevant Notes (including changing the governing law of Condition 18 from English law to Norwegian law), as the case may be, so that they remain or, as appropriate, become, Qualifying Subordinated Securities (in the case of Subordinated Notes) or Qualifying MREL Securities (in the case of Senior Preferred Notes and Senior Non-Preferred Notes) as further provided in Condition 6(m) or Condition 6(n), as the case may be. The Terms and Conditions of such substituted or varied Notes may have terms and conditions that contain one or more provisions that are substantially different from the terms and conditions of the original Notes, provided that the relevant Notes remain or, as appropriate, become, Qualifying Subordinated Securities or Qualifying MREL Securities, as the case may be, in accordance with the Terms and Conditions.

While the relevant Issuer cannot otherwise make changes to the terms of Notes that, in its reasonable opinion, are materially less favourable to the holders of the relevant Notes as a class, the governing law of Condition 18 may be changed from English law to Norwegian law in order to ensure its effectiveness and enforceability.

No assurance can be given as to whether any of these changes will negatively affect any particular holder. In addition, the tax and stamp duty consequences of holding such substituted or varied Notes could be different for some categories of Noteholders from the tax and stamp duty consequences for them of holding the Notes prior to such substitution or variation.

*The gross-up obligation in relation to the Notes is limited to payments of interest only*

The relevant Issuer's obligation under Condition 7 to pay additional amounts in the event of any withholding or deduction in respect of taxes on any payments under the terms of the Notes applies only to payments of interest and not to payments of principal or any other amounts. As such, the relevant Issuer would not be required to pay any additional amounts under the terms of such Notes to the extent any withholding or deduction applied to payments of principal or such other amounts. Accordingly, if any such withholding or deduction were to apply to any payments of principal under any such Notes, Noteholders may receive less than the full amount of principal due under such Notes upon redemption, and the market value of such Notes may be adversely affected.

*There are limited Events of Default and remedies in relation to Notes*

The Events of Default in respect of the Notes are limited to the occurrence of certain liquidation and insolvency events, and the enforcement rights of the Noteholders in relation to such Events of Default are extremely limited. In particular, the Noteholders will not be entitled to accelerate any amounts under the Notes except in the liquidation of the Issuer or other insolvency proceedings in respect of the relevant Issuer. Accordingly, the rights of the holders of such Notes are restricted by such limited Events of Default.

See Condition 9 (*Events of Default*). Accordingly, the rights of the holders of such Notes are restricted by the limited events of default. For the avoidance of doubt, any Notes which are also Green Bonds will still be subject to the limited Events of Default and remedies described above.

*There is no right of set-off, netting or counterclaim in relation to the Notes*

No Holder of any Notes or the Coupons relating thereto will be entitled to set-off the relevant Issuer's obligations under such Notes against obligations owed by them to the relevant Issuer.

*Call options are, in certain circumstances, subject to the prior consent of the Relevant Regulator*

In addition to the call rights described below under “*Subordinated Notes: Capital Event Redemption*”, Subordinated Notes may also contain provisions allowing the relevant Issuer to call them after a minimum period of, for example, five years. To exercise such a call option, the relevant Issuer must (if, and to the extent, then required by the Relevant Regulator) obtain the prior written permission of the Relevant Regulator.

Any early redemption by the relevant Issuer of Senior Non-Preferred Notes or Senior Preferred Notes is also subject to the prior written permission of the Relevant Regulator (if, and to the extent, then required by the Relevant Regulator and by the Applicable MREL Regulations).

Holders of such Notes should not invest in such Notes in the expectation that such a call will be exercised by the relevant Issuer. The Relevant Regulator must agree to permit such a call, based upon its evaluation of the regulatory capital position of the relevant Issuer and certain other factors at the relevant time. There can be no assurance that the Relevant Regulator will permit such a call. Holders of such Notes should be aware that they may be required to bear the financial risks of an investment in such Notes for a period of time in excess of the minimum period (if applicable).

During any period when the Issuer may, or is perceived to be able to, elect to redeem Notes, the market value of such Notes generally will not rise substantially above and may in fact decrease below the price at which they can be redeemed. This may also be true prior to any redemption period.

There can be no assurance that holders of such Notes will be able to reinvest the amounts received upon redemption at a rate that will provide the same rate of return as their investments in such Notes, as the case may be.

### **Risks applicable to certain types of Exempt Notes**

The relevant Issuer may issue Notes with principal or interest payable in respect of the Notes being determined by reference to an index or formula, to changes in the prices of securities or commodities, to movements in currency exchange rates or other factors (each, a “Relevant Factor”). In addition, the relevant Issuer may issue Notes with principal or interest payable in one or more currencies which may be different from the currency in which the Notes are denominated. Potential investors should be aware that:

- (i) the market price of such Notes may be volatile;
- (ii) they may receive no interest;

- (iii) payment of principal or interest may occur at a different time or in a different currency than expected;
- (iv) they may lose all or a substantial portion of their principal;
- (v) a Relevant Factor may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (vi) the effect of any multiplier or leverage factor that is applied to the Relevant Factor that the impact of any changes in the Relevant Factor on the amounts of principal or interest payable will be magnified; and
- (vii) the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield.

The historical experience of an index or other Relevant Factor should not be viewed as an indication of the future performance of such Relevant Factor during the term of any Notes. Accordingly, each potential investor should consult its own financial and legal advisers about the risk entailed by an investment in any Notes linked to a Relevant Factor and the suitability of such Notes in light of its particular circumstances.

*Where Notes are issued on a partly paid basis, an investor who fails to pay any subsequent instalment of the issue price could lose all of their investment.*

The relevant Issuer may issue Notes where the issue price is payable in more than one instalment. Any failure by an investor to pay any subsequent instalment of the issue price in respect of their Notes could result in such investor losing all of their investment.

*Notes which are issued with variable interest rates or which are structured to include a multiplier or other leverage factor are likely to have more volatile market values than more standard securities.*

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features.

*Inverse Floating Rate Notes will have more volatile market values than conventional Floating Rate Notes.*

Inverse Floating Rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as EURIBOR. The market values of those Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

## **Risks related to Notes generally**

*Certain majority decisions will be binding on all Noteholders*

The conditions of the Notes contain provisions which may permit their modification without the consent of all investors. The conditions of the Notes contain provisions for calling meetings (including by way of conference call or by use of a videoconference platform) of Noteholders to consider and vote upon matters affecting their interests generally, or to pass resolutions in writing or through the use of electronic consents. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting or, as the case may be, did not sign the written resolution or give their consent electronically, and including those Noteholders who voted in a manner contrary to the majority.

*The value of the Notes could be adversely affected by a change in English or Norwegian law or administrative practice.*

The conditions of the Notes (except for Condition 3) are based on English law in effect as at the date of this Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of this Prospectus and any such change could materially and adversely impact the value of any Notes affected by it.

Condition 3 is based on Norwegian law in effect as at the date of this Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to Norwegian law or administrative practice after the date of this Prospectus and any such change could materially and adversely impact the value of any Notes affected by it.

In particular, potential investors should note that any new statutes, ordinances and regulations, amendments to legislation or any change in applicable law or administrative practice or the application of the same (including any amendments to or changes in application of tax laws or regulations) may affect the Notes and/or have a material adverse effect on the relevant Issuer's business, financial condition, results of operations and future prospects, and, thereby, on the relevant Issuer's ability to fulfil its obligations under the Notes as well as the market price and value of the Notes, including on the secondary market value of the Notes.

*Investors who hold less than the minimum Specified Denomination may be unable to sell their Notes and may be adversely affected if definitive Notes are subsequently required to be issued.*

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in their account with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination. Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in their account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.

If such Notes in definitive form are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

### **Risks related to Green Bonds**

*In respect of any Notes issued with a specific use of proceeds, such as a Green Bond, there can be no assurance that such use of proceeds will be suitable for the investment criteria of an investor*

The Final Terms (or applicable Pricing Supplement, in the case of Exempt Notes) relating to any specific Tranche of Notes may provide that it will be the relevant Issuer's intention to apply an amount equal to the net proceeds from an offer of those Notes specifically for projects and activities that promote climate-friendly and/or other environmental purposes (either in those words or otherwise) ("Green Projects") as described in the relevant Issuer's Green Bond Framework. Prospective investors should consult with their legal and other advisers before making an investment in any such Notes and must determine for themselves the relevance of the information set out in this Prospectus and the relevant Final Terms (or applicable Pricing Supplement, in the case of Exempt Notes) for the purpose of any investment in such Notes together with any other investigation such investor deems necessary. In particular, no assurance is given by the relevant Issuer, the Arranger, the Dealers or any other person that the use of such proceeds for any Green Projects will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any

investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates (in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, the relevant Green Project). Furthermore, it should be noted that the definition (legal, regulatory or otherwise) of, or market consensus as to what constitutes or may be classified as, a "green", "sustainable", "social" or an equivalently-labelled project or investment continues to evolve (including as a result of the introduction of the EU Taxonomy (as defined below) and similar classification schemes in other jurisdictions), and such Green Projects may not reflect these developments. Even if such a definition, market consensus or label should develop or be established, no assurance can be given by the relevant Issuer, the Arranger, any Dealer or any other person to investors that any Green Projects will comply with any future standards or requirements regarding any "green", "sustainable", "environmental", "social" or other equivalently-labelled performance objectives, including Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the so-called "EU Taxonomy") or Regulation (EU) 2020/852 as it forms part of domestic law in the UK by virtue of the EUWA) nor that they comply with the criteria of any taxonomies, common standards or other framework relating to green investments, and, accordingly, the status of any Notes as being "green", "sustainable", "social" (or equivalent) could be withdrawn at any time. Any Green Bonds issued under the Programme are not issued in compliance with the EU Taxonomy Regulation and are only intended to comply with the requirements and processes in the relevant Issuer's Green Bond Framework.

SpareBank 1 SMN has published a Green Bond Framework relating to an investment in Green Projects which is available on its website (<https://www.SpareBank1.no/en/smn/about-us/sustainability/green-bond-framework.html>). SpareBank 1 Østlandet has published a Green Bond Framework which is available on its website (<https://www.sparebank1.no/en/ostlandet/about-us/investor/debt-investors/green-bond-framework.html>). SpareBank 1 Nord-Norge has published a Green Finance Framework which is available on its website (<https://www.sparebank1.no/en/nord-norge/about-us/about-us/sustainability/green-finance-framework.html>). For the avoidance of doubt, each Issuer's Green Bond Framework is not, nor shall be deemed to be, incorporated in and/or form part of this Prospectus. Each Issuer's Green Bond Framework may be amended at any time without the consent of Noteholders and none of the relevant Issuer, the Arranger or the Dealers assumes any obligation or responsibility to release any update or revision to the relevant Green Bond Framework and/or information to reflect events or circumstances after the date of publication of the Green Bond Framework.

No assurance or representation is given by the relevant Issuer, the Arranger, any Dealer or any other person as to the suitability or reliability for any purpose whatsoever of any opinion, report or certification of any third party (whether or not solicited by the relevant Issuer) which may be made available in connection with the issue of any Notes and in particular with any Green Projects to fulfil any environmental, sustainability, social and/or other criteria. For the avoidance of doubt, any such opinion, report or certification is not, nor shall it be deemed to be, incorporated in and/or form part of this Prospectus. Any such opinion, report or certification is not, nor should be deemed to be, a recommendation by the relevant Issuer, the Arranger, any Dealer, or any other person to buy, sell or hold any such Notes. Any such opinion, report or certification is only current as at the date that such opinion, report or certification was initially issued. Prospective investors must determine for themselves the relevance of any such opinion, report or certification and/or the information contained therein and/or the provider of such opinion, report or certification for the purpose of any investment in such Notes. Currently, the providers of such opinions, reports and certifications are not subject to any specific regulatory or other regime or oversight. Investors in such Notes shall have no recourse against the relevant Issuer, the Arranger, the Dealers or the provider of any such opinion, report or certification for the contents of any such opinion, report or certification.

In the event that any such Notes are listed or admitted to trading on any dedicated "green", "environmental", "sustainable", "social" or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the relevant Issuer, the Arranger, any Dealer or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable

law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any Green Projects. Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. No representation or assurance is given or made by the relevant Issuer, the Arranger, any Dealer or any other person that any such listing or admission to trading will be obtained in respect of any such Notes or, if obtained, that any such listing or admission to trading will be maintained during the life of the Notes.

Whilst it is the intention of the relevant Issuer to apply the proceeds of any Notes so specified for Green Projects in, or substantially in, the manner described in its relevant Green Bond Framework (as applicable), this Prospectus, the relevant Final Terms (or applicable Pricing Supplement, in the case of Exempt Notes), there can be no assurance that the relevant intended project(s) or use(s) which are the subject of, or related to, any Green Projects will be capable of being implemented in, or substantially in, such manner and/or in accordance with any timing schedule and that accordingly such proceeds will be totally or partially disbursed for the specified Green Projects. Nor can there be any assurance that such Green Projects will be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the relevant Issuer. Any such event or failure by the relevant Issuer will not constitute an Event of Default under the Notes or otherwise result in the Notes being redeemed prior to their maturity date. Neither the Arranger nor any Dealer shall be responsible for the ongoing monitoring of the use of proceeds of any such Notes issued under the Programme.

Any such event or failure to apply the proceeds of any issue of Notes for any Green Projects as aforesaid and/or withdrawal of any such opinion, report or certification as described above or any such opinion or certification attesting that the relevant Issuer is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on and/or any such Notes no longer being listed or admitted to trading on any stock exchange or securities market as aforesaid may have a material adverse effect on the value of such Notes and also potentially the value of any other Notes which are intended to finance Green Projects and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

Further, the tenor of the amounts advanced by the relevant Issuer to customers for the purposes of financing or refinancing Green Projects may not match the maturity date of the Notes issued to fund such advances. The subsequent redemption of relevant loans advanced by the relevant Issuer, or the project(s) or use(s) the subject of, or related to, any Green Projects before the maturity date of any Notes issued to fund such advances shall not lead to the early redemption of such Notes nor create any obligation or incentive of the Issuer to redeem the Notes at any time or be a factor in the Issuer's determination as to whether or not to exercise any early redemption rights it may have from time to time.

Any event or failure by the relevant Issuer to apply an amount equal to the net proceeds of any issue of Notes to advance loans to customers to finance and/or refinance any Green Projects, and/or any failure by any such customer to apply those funds to Green Projects as mentioned above, and/or withdrawal of any opinion or certification in connection with any Notes, or any opinion or certification attesting that the relevant Issuer or any of its customers is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on and/or any Notes no longer being listed or admitted to trading on any stock exchange or securities market or any particular segment of any exchange or market as described above and/or any failure by the relevant Issuer to provide or publish any reporting or any impact assessment on the use of proceeds (or amounts equal thereto) from any issue of Notes will not:

- i. give rise to any claim of a Noteholder against the relevant Issuer, the Arranger and/or any Dealer;
- ii. constitute an event of default or, as the case may be, enforcement event under the relevant Green Bonds or a breach or violation of any term of the Green Bonds, or constitute a default by the relevant Issuer for any other purpose, or permit any Noteholder to accelerate the Green Bonds or take any other enforcement action against the relevant Issuer;

- iii. lead to a right or obligation of the relevant Issuer to redeem the Green Bonds or be a relevant factor for the relevant Issuer in determining whether or not to exercise any optional redemption rights in respect of any Green Bonds or give any Noteholder the right to require redemption of its Green Bonds;
- iv. affect the qualification of relevant Green Bonds' qualification as Tier 2 Capital or MREL Eligible Liabilities (as applicable) or impact the features relating to such Green Bonds, including but not limited to their loss absorbing capacity, ranking, applicability of any bail-in and resolution measures available under the BRRD;
- v. otherwise affect or impede the ability of the relevant Issuer to apply the proceeds of such Green Bonds to cover any losses, regardless of whether such losses stem from Green Projects; or
- vi. result in any step-up or increased payments of principal and interest (as the case may be) in respect of any Green Bonds, or otherwise affect the terms and conditions of any Green Bonds.

However, such event or failure may adversely affect the reputation of the relevant Issuer and could have a material adverse effect on the value of the Notes and also potentially the value of any other notes, including (without limitation) notes which are intended to finance the relevant Issuer's lending for other Green Projects and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose. Any Green Bonds may also be subject, as applicable, to any of the other risks highlighted in the section "*Risks related to the structure of a particular issue of Notes*", including any bail-in and resolution measures available under BRRD in the same way as any other Notes issued under the Programme are subject thereto, see "*Notes may be subject to loss absorption on any application of the general bail-in tool or at the point of non-viability of the Issuer*".

The proceeds of issue of Notes which are eligible to count as Tier 2 capital and/or MREL of the relevant Issuer will be available to absorb losses of the relevant Issuer to the same degree and in the same manner as Tier 2 and/or MREL notes that are not issued as Green Bonds. Notes issued as Green Bonds will be subject to write down and conversion of capital instruments and eligible liabilities and/ or other non-viability loss absorption actions in the same way as any other Notes issued under the Programme. Further, investors should note that where Green Bonds qualify for inclusion in the own funds and eligible liabilities of the relevant Issuer, the prudential and resolution rules, including the bail-in tool as defined in the Risk Factor "*Notes may be subject to loss absorption on any application of the general bail-in tool or at the point of non-viability of the Issuer*" will apply to those Green Bonds in the same way as they apply to other Notes issued under the Programme. Green Bonds intended to form part of the own funds and eligible liabilities of the relevant Issuer will not be issued with any features which undermine their ability to absorb losses in compliance with the prevailing prudential and resolution rules, and neither the Green Bonds nor the proceeds of issue of the Notes will be afforded any special treatment or enhanced protections as a result of them being Green Bonds. Subordinated Notes and Senior Non-Preferred Notes will continue to be subject to lower priority ranking than other senior-ranking debts of the Issuer, and the other risks applicable to Senior Preferred Notes, Senior Non-Preferred Notes and Subordinated Notes, including with respect to loss absorption as a result of bail-in or write down shall apply to such irrespective of whether or not such Notes are Green Bonds.

There is no direct contractual link between any Green Bonds and any green targets of the relevant Issuer. The payments of principal and interest (as the case may be) on the Notes and rights to accelerate under the Notes shall not depend on the performance of the relevant Green Projects or any other environmental targets of the relevant Issuer, nor will any investors in the same have any preferred right against such assets.

Investors should refer to the relevant Issuer's website and the Green Bond Framework (as further described in "*Use of Proceeds*", below) for further information.

## Risks Relating to the Legal and Regulatory Environments of the Issuers and the Notes

*Changes in capital adequacy and liquidity requirements may adversely affect the Issuers' results of operations or financial condition*

At the international level, a number of regulatory and supervisory initiatives have been implemented in recent years in order to increase capital requirements, increase the quantity and quality of capital and raise liquidity levels in the banking sector. Among such initiatives are a number of specific measures proposed by the Basel Committee on Banking Supervision (the "Basel Committee") and implemented by the EU through CRD IV (as defined below).

In 2013, the EU adopted a legislative package to strengthen the regulations of the banking sector and to implement the Basel III agreement into the EU legal framework, which resulted in increased capital requirements. The package included Directive 2013/36/EU (the "Capital Requirements Directive", "CRD IV") and the CRR. CRD IV and CRR were implemented into Norwegian law 31 December 2019.

The capital adequacy requirements for banks consist of two pillars. Pillar 1 encompasses minimum capital requirements determined by the political authorities. As per the provisions of the Financial Undertakings Act, banks must hold own funds at least equal to 8 per cent. of their risk-weighted assets (RWAs), of which at least 4.5 per cent. must be Common Equity Tier 1 (CET1) capital and at least 6 per cent. must be Tier 1 capital.

In addition to the minimum CET1 requirement, the Financial Undertakings Act and the Regulation on CRR/CRD IV (*No.: CRR/CRD IV-forskriften*) impose various capital buffer requirements which must be met by Norwegian financial institutions with CET1 capital. As of the date of this Prospectus, the minimum buffer requirements consist of (i) a conservation buffer of 2.5 per cent. of RWAs, (ii) a systemic risk buffer of 4.5 per cent. of RWAs and (iii) a counter-cyclical buffer of 2.5 per cent. of RWAs.

The Financial Undertakings Act gives FSAN power to require banks to hold additional capital, commonly referred to as "Pillar 2". The Pillar 2 requirement imposed by the FSAN comes in addition to the Pillar 1 requirements and is intended to cover institution-specific risks which are not covered or only partly covered by Pillar 1.

The Basel III framework also provides for capital requirements based on total (i.e., non-risk weighted) assets, referred to as leverage ratio requirements. Under the CRR, there is a requirement to maintain a leverage ratio of minimum 3 per cent.

In December 2017, the Basel Committee adopted changes to several parts of the Basel III standards for capital adequacy assessments, aiming, among other things, to ensure greater consistency between banks' reported capital adequacy figures and capital requirements (such changes being commonly referred to as Basel IV). Basel IV includes adjustments to the standardised approach and the internal ratings-based approach, as well as the introduction of a new capital floor. The new capital floor requirement will reduce differences in risk weights and result in more harmonised capital requirements across national borders. Basel IV was planned to take effect 1 January 2022, with a five-year phase-in period. In response to the COVID-19 pandemic, the deadline was postponed by one year to 1 January 2023, with a five-year phasing-in period. On 27 October 2021, the European Commission proposed to implement Basel IV with effect from 1 January 2025 with transitional arrangements applying over a further five-year period.

As the implementation of Basel IV requires national legislation, the final rules and the timetable for its implementation in each jurisdiction, as well as the treatment of covered bonds (e.g. as LCR eligible assets or not), may be subject to some level of national variation.

The Basel III framework also aimed to raise liquidity levels in the banking sector by setting requirements for a liquidity coverage ratio (the LCR). The Norwegian Ministry of Finance has introduced an LCR requirement of 100 per cent. for each significant currency. Due to the limited size of the domestic capital market, the minimum requirement for LCR in NOK is set at 50 per cent. for banks that have U.S.\$ and/or euro

as other significant currencies, with the difference being made up by either U.S.\$ or euro. As a result and to ensure compliance with changes in these rules, the Issuers may need to hold additional liquid assets, which may have an adverse effect on their results of operations or financial condition.

A net stable funding ratio (NSFR) has also been introduced with the Basel III framework. The funding ratio seeks to calculate the proportion of long-term assets which are funded by long-term stable funding. Regulation (EU) 2019/876 amending the CRR (CRR II) introduced a binding NSFR of at least 100%. The CRR II has been implemented in Norwegian law and took effect 1 June 2022.

On 23 November 2016, the European Commission published legislative proposals for amendments to the CRD IV, the CRR and the BRRD and proposed an amending directive to facilitate the creation of a new asset class of “non-preferred” senior debt (the “Banking Reform Package”). The Banking Reform Package covered multiple areas, including the Pillar 2 framework, the leverage ratio, the mandatory restrictions on distributions, the permission for reducing own funds and eligible liabilities, the macroprudential tools, a new category of “non-preferred” senior debt, the MREL (as defined above) framework and the integration of the Financial Stability Board’s proposed minimum total loss-absorbing capacity into EU legislation. The various directives and regulations intended to implement the Banking Reform Package were published in the Official Journal of the European Union on 7 June 2019 and entered into force in the European Union on 27 June 2019.

On 9 April 2021, the Norwegian Ministry of Finance submitted a legislative proposal to Parliament for the implementation of the amendments to the CRR, the CRD IV and the BRRD (respectively, “CRR II”, “CRD V” and “BRRD II”) into Norwegian law. The legislative proposal was adopted by the Norwegian Parliament on 18 June 2021 and entered into force 1 June 2022.

The new category of “non-preferred” senior debt mentioned above is included in the Banking Reform Package by virtue of a draft amending directive facilitating the creation of such new asset class of “non-preferred” senior debt which was published in final form on 12 December 2017 (the “Creditor Hierarchy Directive”). A legislative proposal transposing the Creditor Hierarchy Directive into Norwegian law through amendments of the Financial Undertakings Act was adopted by the Norwegian Parliament on 23 April 2021 and entered into force on 1 July 2021.

In order to ensure compliance with an ever-changing regulatory landscape, the Issuers may need to increase their capital ratios in the future by reducing their lending or investment in other operations or raising additional capital. Such capital, whether in the form of debt financing, hybrid capital or additional equity, may not be available on attractive terms or at all. In addition, it is difficult to predict what regulatory requirements relating to capital may be imposed in the future or accurately estimate the impact that any currently proposed regulatory changes may have on the business, the products and services offered by the Issuers and the values of their assets. For example, if any entity of an Issuer is required to make additional provisions, increase its reserves or capital.

*The regulation and reform of “benchmarks” may adversely affect the value of Notes linked to or referencing such “benchmarks”*

Interest rates and indices which are deemed to be "benchmarks", (including EURIBOR and CMS Rate) are the subject of national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a benchmark.

The EU Benchmarks Regulation applies, subject to certain transitional provisions, to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. Among other things, it (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities (such as the Issuers) of benchmark of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed). Regulation (EU) 2016/1011 as it

forms part of UK domestic law by virtue of the EUWA (the “UK Benchmarks Regulation”) among other things, applies to the provision of benchmarks and the use of a benchmark in the UK. Similarly, it prohibits the use in the UK by UK supervised entities of benchmarks of administrators that are not authorised by the UK Financial Conduct Authority (“FCA”) or registered on the FCA register (or, if non-UK based, not deemed equivalent or recognised or endorsed).

The EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, could have a material impact on any Notes linked to or referencing a benchmark in particular, if the methodology or other terms of the benchmark are changed in order to comply with the requirements of the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the relevant benchmark.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements.

The euro risk-free rate working group for the euro area has published a set of guiding principles and high level recommendations for fallback provisions in, amongst other things, new euro denominated cash products (including bonds) referencing EURIBOR. The guiding principles indicate, among other things, that continuing to reference EURIBOR in relevant contracts (without robust fallback provisions) may increase the risk to the euro area financial system. On 11 May 2021, the euro risk-free rate working group published its recommendations on EURIBOR fallback trigger events and fallback rates. On 4 December 2023, the group issued its final statement, announcing completion of its mandate.

Such factors may have (without limitation) the following effects on certain benchmarks (including EURIBOR and CMS Rate): (i) discouraging market participants from continuing to administer or contribute to a benchmark; (ii) triggering changes in the rules or methodologies used in the benchmark; and/or (iii) leading to the disappearance of the benchmark. Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to, referencing or otherwise dependent (in whole or in part) upon a benchmark.

In the case of Notes where the applicable Final Terms specify that Condition 4(e) (*Benchmark replacement*) applies, if the relevant Issuer (in consultation with the Agent (or the person specified in the applicable Final Terms as the party responsible for calculating the Rate of Interest and the Interest Amount(s))) determines that a Benchmark Event (as defined in the Terms and Conditions of the Notes) has occurred, then the relevant Issuer shall use reasonable endeavours to appoint and consult with an Independent Adviser for the purposes of determining a Successor Rate or an Alternative Benchmark Rate (as further described in Condition 4(e)) and an Adjustment Spread. If the relevant Issuer is unable to appoint an Independent Adviser or if the Independent Adviser and the relevant Issuer cannot agree upon, or cannot select, the Successor Rate or Alternative Benchmark Rate, the relevant Issuer may determine the replacement rate, provided that if the relevant Issuer is unable or unwilling to determine the Successor Rate or Alternative Benchmark Rate, the further fallbacks described in the Terms and Conditions of the Notes shall apply. In addition, due to the uncertainty concerning the availability of Successor Rates and Alternative Reference Rates and the involvement of an Independent Adviser, the relevant fallback provisions may not operate as intended at the relevant time.

The ultimate fallback for the purposes of calculation of the Rate of Interest for a particular Interest Period may result in the Rate of Interest for the last preceding Interest Period being used. This may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the Relevant Screen Page.

The use of a Successor Rate or an Alternative Benchmark Rate may result in interest payments that are substantially lower than or that do not otherwise correlate over time with the payments that could have been made on the Notes if the relevant benchmark remained available in its current form. Furthermore, if the

relevant Issuer is unable to appoint an Independent Adviser or if the relevant Issuer fails to agree a Successor Rate or an Alternative Benchmark Rate or adjustment spread, with the Independent Adviser, the relevant Issuer may have to exercise its discretion to determine (or to elect not to determine) an Alternative Benchmark Rate or adjustment spread, in a situation in which it is presented with a conflict of interest. In addition, while any adjustment spread may be expected to be designed to eliminate or minimise any potential transfer of value between counterparties, the application of an adjustment spread to the Notes may result in the Notes linked to or referencing an Original Reference Rate performing differently (which may include payment of a lower Rate of Interest) than they would do if the Original Reference Rate were to continue to apply in its current form.

The relevant Issuer has also undertaken in the Conditions that it will not make any amendment pursuant to Condition 4(e) of the Terms and Conditions of the Notes if to do so could reasonably be expected to prejudice the qualification of the Notes as, in the case of the Senior Non-Preferred Notes and the Senior Preferred Notes, MREL Eligible Liabilities (as defined in the Terms and Conditions of the Notes) or, in the case of the Subordinated Notes, Tier 2 Capital (as defined in the Terms and Conditions of the Notes) of the relevant Issuer.

Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to or referencing, or otherwise dependent (in whole or in part) upon, a benchmark.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable or any of the national or international reforms and the possible application of the benchmark replacement provisions of Notes in making any investment decision with respect to any Notes referencing a benchmark.

### **Risks related to the market generally**

*An active secondary market in respect of the Notes may never be established or may be illiquid and this would adversely affect the value at which an investor could sell their Notes.*

Notes may have no established trading market when issued, and one may never develop. If a market for the Notes does develop, it may not be very liquid and may be sensitive to changes in financial markets. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case should the Issuer be in financial distress, which may result in any sale of the Notes having to be at a substantial discount to their principal amount or for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities.

*If an investor holds Notes which are not denominated in the investor's home currency, they will be exposed to movements in exchange rates adversely affecting the value of their holding. In addition, the imposition of exchange controls in relation to any Notes could result in an investor not receiving payments on those Notes.*

Each Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "Investor's Currency") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency-equivalent value of the principal payable on the Notes and (3) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer to make payments in respect of the Notes. As a result, investors may receive less interest or principal than expected, or no interest or principal.

*Credit ratings assigned to the Issuer or any Notes may not reflect all the risks associated with an investment in those Notes.*

One or more independent credit rating agencies may assign credit ratings the Issuer or to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the rating agency at any time. If any rating assigned to the Issuers or the Notes is revised lower, suspended, withdrawn or not maintained by the Issuers, the market value of the Notes may be reduced.

The Issuers are exposed to changes in the rating methodologies applied by rating agencies. As at the date of this Prospectus, SpareBank 1 Nord-Norge has been rated “Aa3” by Moody’s. SpareBank 1 SMN has been rated “Aa3” by Moody’s. SpareBank 1 Østlandet has been rated “Aa3” by Moody’s. The ratings from Moody’s carry stable outlooks. The Issuers’ ratings from Moody’s currently incorporate one notch of rating uplift due to the rating agency’s moderate government support assumption driven by their systemic importance. Moody’s said that its government support assumptions are likely to be revised lower, once the proposed legislation for BRRD is passed into law by the parliament. Any adverse changes in rating methodologies may materially and adversely affect the Issuers’ operations or financial condition and the Issuers’ funding costs and ability to access the debt capital markets.

*Notes which are issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates.*

The market values of securities issued at a substantial discount (such as Zero Coupon Notes) or premium to their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for more conventional interest-bearing securities. Generally, the longer the remaining term of such securities, the greater the price volatility as compared to more conventional interest-bearing securities with comparable maturities. Such volatility could have a material adverse effect on the value of and return on any such Notes.

## FORM OF THE NOTES

*Any reference in this section to "applicable Final Terms" shall be deemed to include a reference to "applicable Pricing Supplement" where relevant.*

Each Tranche of Notes will be in bearer form and will initially be issued in the form of a temporary global note (a "Temporary Global Note") or, if so specified in the applicable Final Terms, a permanent global note (a "Permanent Global Note" and, together with the Temporary Global Note, each a "Global Note") which, in either case, will (i) if the Global Notes are intended to be issued in new global note ("NGN") form, as stated in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to a common safekeeper (the "Common Safekeeper") for Euroclear Bank SA/NV ("Euroclear") and Clearstream Banking, S.A. ("Clearstream, Luxembourg"); and (ii) if the Global Notes are not intended to be issued in NGN form, be delivered on or prior to the original issue date of the Tranche to a common depository (the "Common Depository") of Euroclear and Clearstream, Luxembourg.

Where the Global Notes issued in respect of any Tranche are in NGN form, the applicable Final Terms will also indicate whether such Global Notes are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Global Notes are to be so held does not necessarily mean that the Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The Common Safekeeper for NGNs will either be Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear and Clearstream, Luxembourg.

Whilst any Note is represented by a Temporary Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Global Note if the Temporary Global Note is not intended to be issued in NGN form) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in the Temporary Global Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Issuing and Principal Paying Agent (the "Agent").

On and after the date (the "Exchange Date") which is 40 days after the Temporary Global Note is issued, interests in such Temporary Global Note will be exchangeable (free of charge) upon a request as described therein either for (i) interests in a Permanent Global Note of the same Series or (ii) definitive Notes of the same Series with, where applicable, receipts, interest coupons and talons attached (as indicated in the applicable Final Terms), in each case against certification of beneficial ownership as described above unless such certification has already been given. The holder of a Temporary Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Global Note for an interest in a Permanent Global Note or for definitive Notes is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Global Note will be made through Euroclear and/or Clearstream, Luxembourg (against presentation or surrender (as the case may be) of the Permanent Global Note if the Permanent Global Note is not intended to be issued in NGN form) without any requirement for certification.

The applicable Final Terms will specify that a Permanent Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Notes with, where applicable, receipts, interest coupons and talons attached upon the occurrence of an Exchange Event. For these purposes, "Exchange Event" means that (i) an Event of Default (as defined in Condition 9) has occurred and is continuing, (ii) the relevant Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system is available or (iii) the

relevant Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Permanent Global Note in definitive form. The relevant Issuer will promptly give notice to Noteholders in accordance with Condition 13 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Global Note) may give notice to the Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the relevant Issuer may also give notice to the Agent requesting exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Agent.

The following legend will appear on all Notes (other than Temporary Global Notes), receipts and interest coupons relating to such Notes where TEFRA D is specified in the applicable Final Terms or Pricing Supplement, as the case may be:

“ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE.”

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Notes, receipts or interest coupons and will not be entitled to capital gains treatment in respect of any gain on any sale, disposition, redemption or payment of principal in respect of such Notes, receipts or interest coupons.

Notes which are represented by a Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

Pursuant to the Agency Agreement (as defined under “*Terms and Conditions of the Notes*”), the Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes at a point after the Issue Date of the further Tranche, the Notes of such further Tranche shall be assigned a common code and ISIN which are different from the common code and ISIN assigned to Notes of any other Tranche of the same Series until such time as the Tranches are consolidated and form a single Series, which shall not be prior to the expiry of the distribution compliance period (as defined in Regulation S under the Securities Act) applicable to the Notes of such Tranche.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms.

Notes may be accelerated by the holder thereof only in limited circumstances described in Condition 9(a). In such circumstances, where any Note is still represented by a Global Note and the Global Note (or any part thereof) has become due and repayable in accordance with the Terms and Conditions of such Notes and payment in full of the amount due has not been made in accordance with the provisions of the Global Note then from 8.00 p.m. (London time) on such day holders of interests in such Global Note credited to their accounts with Euroclear and/or Clearstream, Luxembourg, as the case may be, will become entitled to proceed directly against the Issuer on the basis of statements of account provided by Euroclear and/or Clearstream, Luxembourg on and subject to the terms of a deed of covenant (the “Deed of Covenant”) dated 21 June 2024, executed by each Issuer.

The Issuer may agree with any Dealer that Notes may be issued in a form not contemplated by the Terms and Conditions of the Notes, in which event, other than where such Notes are Exempt Notes, a new Prospectus will be made available which will describe the effect of the agreement reached in relation to such Notes.

## APPLICABLE FINAL TERMS

*Set out below is the form of Final Terms which will be completed for each Tranche of Notes which are not Exempt Notes and which (1) have a denomination of €100,000 (or its equivalent in any other currency) or more issued and/or (2) are to be admitted to trading only on a regulated market, or a specific segment of a regulated market, to which only qualified investors (as defined in the Prospectus Regulation) have access.*

**[PROHIBITION OF SALES TO EEA RETAIL INVESTORS** – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“EEA”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “MiFID II”) or; (ii) a customer within the meaning of Directive (EU) 2016/97 (the “Insurance Distribution Directive”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the “Prospectus Regulation”). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the “PRIIPs Regulation”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.]

**[PROHIBITION OF SALES TO UK RETAIL INVESTORS** – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (“UK”). Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the “UK PRIIPs Regulation”) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.]

**MiFID II product governance / Professional investors and ECPs only target market** – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in [Directive 2014/65/EU (as amended, “MiFID II”)] [MiFID II]; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. [Consider any negative target market]. Any person subsequently offering, selling or recommending the Notes (a “distributor”) should take into consideration the manufacturer[’s/s’] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer[’s/s’] target market assessment) and determining appropriate distribution channels.

**[UK MiFIR product governance / Professional investors and ECPs only target market** – Solely for the purposes of [the/each] manufacturer’s product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook, and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA (“UK MiFIR”); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. [*Consider any negative target market*]. Any person subsequently offering, selling or recommending the Notes (a “distributor”) should take into consideration the manufacturer[’s/s’] target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the “UK MiFIR Product Governance Rules”) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer[’s/s’] target market assessment) and determining appropriate distribution channels.]

**[SINGAPORE SECURITIES AND FUTURES ACT PRODUCT CLASSIFICATION** – Solely for the purposes of its obligations pursuant to sections 309B(1)(a) and 309B(1)(c) of the Securities and Futures Act 2001 of Singapore, as modified or amended from time to time (the “SFA”), the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A of the SFA) that the Notes are "prescribed capital markets products" (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018) and "Excluded Investment Products" (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).]

*The following are the Terms and Conditions of the Notes which will be incorporated by reference into each Global Note (as defined below) and each Definitive Note, in the latter case only if permitted by the relevant stock exchange (if any) and agreed by the relevant Issuer and the relevant Dealer at the time of issue but, if not so permitted and agreed, such definitive Note will have endorsed thereon or attached thereto such Terms and Conditions. The applicable Pricing Supplement in relation to any Tranche of Exempt Notes may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with the following Terms and Conditions, replace or modify the following Terms and Conditions for the purpose of such Notes. The applicable Final Terms (or the relevant provisions thereof) will be endorsed upon, or attached to, each Global Note and definitive Note. Reference should be made to “Applicable Final Terms” for a description of the content of Final Terms which will specify which of such terms are to apply in relation to the relevant Notes.*

This Note is one of a Series (as defined below) of Notes issued pursuant to the Agency Agreement (as amended and restated) (as defined below). References to the “Issuer” shall be references to the party specified as such in the applicable Final Terms (as defined below).

References herein to the “Notes” shall be references to the Notes of this Series and shall mean:

- (i) in relation to any Notes represented by a global Note (a “Global Note”), units of each Specified Denomination in the Specified Currency;
- (ii) any Global Note; and
- (iii) any definitive Notes issued in exchange for a Global Note.

The Notes, the Receipts (as defined below) and the Coupons (as defined below) have the benefit of an Agency Agreement (as amended and restated) (such Agency Agreement, as amended and/or supplemented and/or restated from time to time, the “Agency Agreement”) dated 21 June 2024, and made between, *inter alia*, SpareBank 1 SMN, SpareBank 1 Nord-Norge and SpareBank 1 Østlandet as Issuers, Citibank, N.A., London Branch as issuing and principal paying agent and agent bank (the “Agent”, which expression shall include any successor agent) and the other paying agents named therein (together with the Agent, the “Paying Agents”, which expression shall include any additional or successor paying agents).

The final terms for this Note (or the relevant provisions thereof) are set out in Part A of the Final Terms attached to or endorsed on this Note which complete these Terms and Conditions (the “Conditions”) or, if this Note is a Note which is neither admitted to trading on (i) a regulated market in the European Economic Area or (ii) a UK regulated market as defined in Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018, nor offered in (i) the European Economic Area or (ii) the United Kingdom in circumstances where a prospectus is required to be published under the Prospectus Regulation or the Financial Services and Markets Act 2000 (as the case may be) (an “Exempt Note”), the final terms (or the relevant provisions thereof) are set out in Part A of the Pricing Supplement and may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with the Conditions, replace or modify the Conditions for the purposes of this Note. References to the applicable Final Terms are, unless otherwise stated, to Part A of the Final Terms (or the relevant provisions thereof) attached to or endorsed on this Note. Any reference in the Conditions to “applicable Final Terms” shall be deemed to include a reference to “applicable Pricing Supplement” where relevant. If the Notes are to be admitted to trading on the regulated market of the Luxembourg Stock Exchange the applicable Final Terms will be published on the website of the Luxembourg Stock Exchange ([www.luxse.com](http://www.luxse.com)). If this Note is an Exempt Note, the applicable Pricing Supplement will only be obtainable by a Noteholder holding one or more such Notes and such Noteholder must produce evidence satisfactory to the Issuer and the relevant Paying Agent as to its holding of such Notes and identity. The Noteholders, the Receiptholders and the Couponholders are deemed to have notice of, and are entitled to the benefit of, all the provisions of the Agency Agreement, the Deed of Covenant and the applicable Final Terms which are applicable to them. The statements in these Conditions include summaries of, and are subject to, the detailed provisions of the Agency Agreement.

Words and expressions defined in the Agency Agreement or used in the applicable Final Terms shall have the same meanings where used in these Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of inconsistency between the Agency Agreement and the applicable Final Terms, the applicable Final Terms will prevail.

- (A) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (B) in the case of Fixed Rate Notes in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination without any further rounding.

In these Conditions:

“Day Count Fraction” means, in respect of the calculation of an amount of interest in accordance with this Condition 4(a):

- (i) if “Actual/Actual (ICMA)” is specified in the applicable Final Terms:
  - (a) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the “Accrual Period”) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
  - (b) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
    - (1) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; and
    - (2) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
- (ii) if “30/360” is specified in the applicable Final Terms, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360.

“Determination Period” means each period from (and including) a Determination Date to but excluding the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

“sub-unit” means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent.

(b) *Interest on Floating Rate Notes*

(i) *Interest Payment Dates*

Each Floating Rate Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (A) the Specified Interest Payment Date(s) in each year specified in the applicable Final Terms; or
- (B) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Specified Interest Payment Date, an “Interest Payment Date”) which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period. In these Conditions, “Interest Period” means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date or the relevant payment date if the Notes become payable on a date other than an Interest Payment Date.

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day on the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (1) in any case where Specified Periods are specified in accordance with Condition 4(b)(i)(B) above, the Floating Rate Convention, such Interest Payment Date (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) below shall apply *mutatis mutandis* or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (B) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (2) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (3) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (4) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In these Conditions, “Business Day” means a day which is:

- (A) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and any Additional Business Centre (other than T2) specified in the applicable Final Terms;
- (B) if T2 is specified as an Additional Business Centre in the applicable Final Terms, a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer System (“T2”) is open; and
- (C) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the Specified Currency is Australian dollars or New Zealand dollars shall be Melbourne or Wellington, respectively) or (2) in relation to any sum payable in euro, a day on which T2 is open.

(ii) *Rate of Interest*

The Rate of Interest payable from time to time in respect of Floating Rate Notes will be determined in the manner specified in the applicable Final Terms.

(A) *Screen Rate Determination for Floating Rate Notes*

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (1) the offered quotation; or
- (2) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate (being EURIBOR) which appears or appear, as the case may be, on the Relevant Screen Page (or such replacement page on that service which displays the information) as at 11.00 a.m. (Brussels time, in the case of EURIBOR) on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

If the Relevant Screen Page is not available or if, in the case of (1), no offered quotation appears or, in the case of (2), fewer than three offered quotations appear, in each case as at the Specified Time, the Issuer or an agent appointed by it shall request each of the Reference Banks to provide its offered quotation (expressed as a percentage rate per annum) for the Reference Rate at approximately the Specified Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Issuer or an agent appointed by it with offered quotations, the Rate of Interest for the Interest Period shall be the arithmetic mean (rounded if necessary to the fifth decimal place with 0.000005 being rounded upwards) of the offered quotations plus or minus (as appropriate) the Margin (if any), all as determined by the Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Issuer or an agent appointed by it with an offered quotation as provided in the preceding paragraph, the Rate of Interest

for the relevant Interest Period shall be the rate per annum which the Agent determines as being the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the rates, as communicated to (and at the request of) the Issuer or an agent appointed by it by the Reference Banks or any two or more of them, at which such banks were offered, at approximately the Specified Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the Euro-zone inter-bank market (if the Reference Rate is EURIBOR) plus or minus (as appropriate) the Margin (if any) or, if fewer than two of the Reference Banks provide offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at approximately the Specified Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for the purpose) informs the Issuer or an agent appointed by it, it is quoting to leading banks in the Euro-zone inter-bank market (if the Reference Rate is EURIBOR) plus or minus (as appropriate) the Margin (if any), provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period in place of the Margin relating to that last preceding Interest Period).

For the purposes of this sub-paragraph (A):

“Reference Banks” means, in the case of a determination of EURIBOR, the principal Euro-zone office of four major banks in the Euro-zone inter-bank market, as selected by the Issuer or an agent appointed by it.

“Specified Time” means 11.00 a.m. (Brussels time, in the case of a determination of EURIBOR).

*(B) CMS Rate Determination for Floating Rate Notes*

Where CMS Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be determined by the Calculation Agent (as specified in the applicable Final Terms) by reference to the following formula:

$(\text{CMS Rate} \times \text{Multiplier}) \text{ plus Margin}$

If the CMS Screen Page is not available, the Issuer or an agent appointed by it shall request each of the CMS Reference Banks to provide its quotation for the Relevant Swap Rate at approximately the Specified Time on the Interest Determination Date in question. If at least three of the CMS Reference Banks provide the Issuer or an agent appointed by it with such quotation, the CMS Rate for such Interest Period shall be the arithmetic mean of such quotations, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest).

If on any Interest Determination Date less than three or none of the CMS Reference Banks provides the Issuer or an agent appointed by it with such quotations as provided in the preceding paragraph, the CMS Rate shall be determined by the Issuer or an agent appointed by it in good faith on such commercial basis as considered appropriate in its absolute discretion, in accordance with standard market practice.

For the purposes of this sub-paragraph (B):

“CMS Rate” shall mean the applicable swap rate for swap transactions in the Reference Currency with a maturity of the Designated Maturity, expressed as a percentage, which appears on the CMS Screen Page as at the Specified Time on the Interest Determination Date in question, all as determined by the Calculation Agent.

“CMS Reference Banks” means, where the Reference Currency is Euro, the principal office of five leading swap dealers in the Eurozone inter-bank market.

“CMS Screen Page” means, where the Reference Currency is Euro, Reuters Screen ICESWAP2 (formerly ISDAFIX2) under the heading "EURIBOR BASIS – EUR" and above the caption "11:00 AM FRANKFURT" or its successor display page, unless otherwise specified in the applicable Final Terms.

“Designated Maturity” shall have the meaning given to this term in the applicable Final Terms.

“Interest Determination Date” means, where the Reference Currency is Euro, the second day on which the TARGET2 System is open prior to the start of each Interest Period, unless otherwise specified in the applicable Final Terms.

“Margin” shall have the meaning given to this term in the applicable Final Terms.

“Multiplier” shall have the meaning given to this term in the applicable Final Terms.

“Reference Currency” means Euro.

“Relevant Swap Rate” means, where the Reference Currency is Euro, the mid-market annual swap rate determined on the basis of the arithmetic mean of the bid and offered rates for the annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating euro interest rate swap transaction with a term equal to the Designated Maturity commencing on the first day of the relevant Interest Period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, in each case calculated on an Actual/360 day count basis, is equivalent to EUR-EURIBOR-Reuters (as defined in the ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes (the "ISDA Definitions")) with a designated maturity determined by the Calculation Agent by reference to standard market practice and/or the ISDA Definition..

“Representative Amount” means an amount that is representative for a single transaction in the relevant market at the relevant time.

“Specified Time” means, where the Reference Currency is Euro, 11.00 a.m., Frankfurt time.

(iii) *Minimum Rate of Interest and/or Maximum Rate of Interest*

If the applicable Final Terms specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (ii) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Final Terms specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (ii) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(iv) *Determination of Rate of Interest and calculation of Interest Amounts*

The Agent will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period. The Agent will calculate the amount of interest (the “Interest Amount”) payable on the Floating Rate Notes for the relevant Interest Period by applying the Rate of Interest to:

- (A) in the case of Floating Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Notes represented by such Global Note (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (B) in the case of Floating Rate Notes in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Floating Rate Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination without any further rounding.

“Day Count Fraction” means, in respect of the calculation of an amount of interest in accordance with this Condition 4(b):

- (i) if “Actual/Actual (ISDA)” or “Actual/Actual” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (I) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (II) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);
- (ii) if “Actual/365 (Fixed)” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365;
- (iii) if “Actual/365 (Sterling)” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (iv) if “Actual/360” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 360;
- (v) if “30/360”, “360/360” or “Bond Basis” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y<sub>1</sub>” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y<sub>2</sub>” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“M<sub>1</sub>” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M<sub>2</sub>” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D<sub>1</sub>” is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case D<sub>1</sub> will be 30; and

“D<sub>2</sub>” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D<sub>1</sub> is greater than 29, in which case D<sub>2</sub> will be 30;

- (vi) if “30E/360” or “Eurobond Basis” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y<sub>1</sub>” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y<sub>2</sub>” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“M<sub>1</sub>” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M<sub>2</sub>” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D<sub>1</sub>” is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D<sub>1</sub> will be 30; and

“D<sub>2</sub>” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case D<sub>2</sub> will be 30;

- (vii) if “30E/360 (ISDA)” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y<sub>1</sub>” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y<sub>2</sub>” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“M<sub>1</sub>” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M<sub>2</sub>” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D<sub>1</sub>” is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D<sub>1</sub> will be 30; and

“D<sub>2</sub>” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D<sub>2</sub> will be 30.

(v) *Linear Interpolation*

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Final Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

“Designated Maturity” means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

(vi) *Notification of Rate of Interest and Interest Amounts*

The Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and any stock exchange on which the relevant Floating Rate Notes are for the time being listed (by no later than the first day of each Interest Period) and notice thereof to be published in accordance with Condition 13 as soon as possible after their determination but in no event later than the fourth London Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will promptly be notified to each stock exchange on which the relevant Floating Rate Notes are for the time being listed and to the Noteholders in accordance with Condition 13. For the purposes of this paragraph, the expression “London Business Day” means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in London.

(vii) *Certificates to be final*

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 4(b), whether by the Agent or, if applicable, the Calculation Agent, shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Agent, the Calculation Agent (if applicable), the other Paying Agents and all Noteholders, Receiptholders and Couponholders and (in the absence as aforesaid) no liability to the Issuer, the Noteholders, the Receiptholders or the Couponholders shall attach to the Agent or the Calculation Agent (if applicable) in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(c) *Exempt Notes*

In the case of Exempt Notes which are also Floating Rate Notes where the applicable Pricing Supplement identifies that Screen Rate Determination or CMS Rate Determination applies to the calculation of interest, if the Reference Rate from time to time is specified in the applicable Pricing Supplement as being other than EURIBOR or CMS Reference Rate, the Rate of Interest in respect of such Exempt Notes will be determined as provided in the applicable Pricing Supplement.

The rate or amount of interest payable in respect of Exempt Notes which are not also Fixed Rate Notes or Floating Rate Notes shall be determined in the manner specified in the applicable Pricing Supplement, provided that where such Notes are Index Linked Interest Notes the provisions of Condition 4(b) shall, save to the extent amended in the applicable Pricing Supplement, apply as if the references therein to Floating Rate Notes and to the Agent were references to Index Linked Interest Notes and the Calculation Agent, respectively, and provided further that the Calculation Agent will notify the Agent of the Rate of Interest for the relevant Interest Period as soon as practicable after calculating the same.

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes and otherwise as specified in the applicable Pricing Supplement.

(d) *Accrual of interest*

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date for its redemption unless payment of principal is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

- (1) the date on which all amounts due in respect of such Note have been paid; and
- (2) five days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Agent and notice to that effect has been given to the Noteholders in accordance with Condition 13.

(e) *Benchmark replacement*

This Condition 4(e) is applicable only in relation to Notes in respect of which the applicable Final Terms specify that this Condition 4(e) is applicable and references to “Notes” in this Condition 4(e) shall be construed accordingly. Notwithstanding the foregoing provisions of this Condition 4, if the Issuer (in consultation with the Agent (or the person specified in the applicable Final Terms as the party responsible for calculating the Rate of Interest and the Interest Amount(s))) determines that a Benchmark Event has occurred in relation to an Original Reference Rate at any time when the Conditions provide for any Rate of Interest (or the relevant component part thereof) to be determined by reference to such Original Reference Rate, then the following provisions shall apply:

- (i) the Issuer shall use reasonable endeavours to appoint and consult with an Independent Adviser, as soon as reasonably practicable, for the determination (with the Issuer's agreement) of a Successor Rate or, alternatively, if the Independent Adviser and the Issuer agree that there is no Successor Rate, an Alternative Benchmark Rate and, in either case, an Adjustment Spread no later than five (5) Business Days prior to the relevant Interest Determination Date relating to the next succeeding Interest Period (the “IA Determination Cut-off Date”) for the purposes of determining the Rate of Interest applicable to the Notes for such next succeeding Interest Period and for all future Interest Periods (subject to the subsequent further operation of this Condition 4(e) during any other future Interest Periods);
- (ii) if the Independent Adviser and the Issuer acting in good faith and in a commercially reasonable manner agree that:
  - (a) there is a Successor Rate, then such Successor Rate shall (as adjusted by the applicable Adjustment Spread provided in Condition 4(e)(iv) subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the subsequent operation of this Condition 4(e); or
  - (b) there is no Successor Rate but that there is an Alternative Benchmark Rate, then such Alternative Benchmark Rate shall (as adjusted by the applicable Adjustment Spread as provided in Condition 4(e)(iv) subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the subsequent operation of this Condition 4(e));
- (iii) if, following the occurrence of a Benchmark Event and in relation to the determination of the Rate of Interest on the immediately following Interest Determination Date, the Issuer is unable to appoint an Independent Adviser, or if the Independent Adviser and the Issuer cannot agree

upon, or cannot select a Successor Rate or, failing which, an Alternative Benchmark Rate or, in either case, an applicable Adjustment Spread prior to the IA Determination Cut-off Date in accordance with sub-paragraph (ii) above and the Relevant Screen Page is no longer available for use, then the Issuer (acting in good faith and in a commercially reasonable manner) may determine which (if any) rate has replaced the Original Reference Rate in customary market usage for purposes of determining floating rates of interest in respect of eurobonds denominated in the Specified Currency, or, if it determines that there is no such rate, which (if any) rate is most comparable to the Original Reference Rate, and the Alternative Benchmark Rate shall be the rate so determined by the Issuer; *provided, however*, that if this sub-paragraph (iii) applies and the Issuer is unable or unwilling to determine an Alternative Benchmark prior to the Interest Determination Date relating to the next succeeding Interest Period in accordance with this sub-paragraph (iii), then the Rate of Interest applicable to the next succeeding Interest Period shall be equal to the Rate of Interest last determined in relation to the Notes in respect of the immediately preceding Interest Period (though substituting, where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Period, in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Period). For the avoidance of doubt, this sub-paragraph shall apply to the relevant next succeeding Interest Period only and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustment as provided in, this Condition 4(e);

- (iv) if a Successor Rate or Alternative Rate is determined in accordance with this Condition 4(e), the Issuer, following consultation with the Independent Adviser and acting in good faith and in a commercially reasonable manner, shall determine (A) an Adjustment Spread (which may be expressed as a specified quantum of, or a formula or methodology for determining, such Adjustment Spread) to be applied to the Successor Rate or Alternative Benchmark Rate (as the case may be) and such Adjustment Spread shall be applied to the Successor Rate or Alternative Benchmark Rate (as the case may be) for each subsequent determination of a relevant Rate of Interest and Interest Amount(s) (or a relevant component part thereof) by reference to such Successor Rate or Alternative Benchmark Rate (as applicable), subject to the subsequent further operation of, and adjustment as provided, this Condition 4(e);
- (v) if any Successor Rate or an Alternative Benchmark Rate and (in either case) the applicable Adjustment Spread is determined in accordance with this Condition 4(e), the Independent Adviser (acting in good faith and with the Issuer's agreement) or the Issuer (as the case may be), may also determine (i) that amendments to these Conditions and/or the Agency Agreement are necessary to ensure the proper operation of such Successor Rate, Alternative Benchmark Rate and/or Adjustment Spread (such amendments, the "Benchmark Amendments") and (ii) the terms of the Benchmark Amendments, then the Issuer may also take necessary action to effect such Benchmark Amendments (and for the avoidance of doubt, the Fiscal Agent shall, at the direction and expense of the Issuer, consent to and effect such consequential amendments to the Agency Agreement and these Conditions as may be required in order to give effect to this Condition 4(e)). No Noteholder consent shall be required in connection with effecting such Benchmark Amendments; and
- (vi) the Issuer shall promptly following the determination of any Successor Rate or Alternative Benchmark Rate and Adjustment Spread give notice thereof and of any Benchmark Amendments to the Fiscal Agent, the Calculation Agent and, in accordance with Condition 13, the Noteholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any and will be binding on the Issuer, the Paying Agents and the Noteholders.

Without prejudice to the obligations of the Issuer under Conditions 4(e) (i), (ii), (iii) and (iv), the Original Reference Rate and the fallback provisions provided for in Condition 4(b) will continue to apply

unless and until the Fiscal Agent and the Calculation Agent have been notified of the Successor Rate or the Alternative Benchmark Rate (as the case may be), any Adjustment Spread (if applicable) and Benchmark Amendments (if applicable), in accordance with Condition 4(e)(vi).

For the avoidance of doubt, this Condition 4(e) shall apply to the determination of the Rate of Interest on the relevant Interest Determination Date only and the Rate of Interest applicable to any subsequent Interest Periods are subject to the subsequent operation of, and to adjustment as provided in, this Condition 4(e).

Notwithstanding any other provision of this Condition 4(e), no Successor Rate or Alternative Benchmark Rate or Adjustment Spread (as applicable) will be adopted, and no other amendments to the terms of the Notes will be made pursuant to this Condition 4(e), if and to the extent that, in the determination of the Issuer, the same could reasonably be expected to prejudice the qualification of the Notes as:

- (A) in the case of Senior Non-Preferred Notes and Senior Preferred Notes, MREL Eligible Liabilities; or
- (B) in the case of Subordinated Notes, Tier 2 Capital of the Issuer,

or, in the case of Senior Preferred Notes and Senior Non-Preferred Notes only, if and to the extent that, in the determination of the Issuer, the same could reasonably be expected to result in the Relevant Regulator treating a future Interest Payment Date (as applicable) as the effective maturity of the Notes, rather than the relevant Maturity Date.

Notwithstanding any other provision of this Condition 4(e), if in the Calculation Agent and the Fiscal Agent's opinion there is any uncertainty between two or more alternative courses of action in making any determination or calculation under this Condition 4(e), the Calculation Agent and the Fiscal Agent shall promptly notify the Issuer thereof and the Issuer shall direct the Calculation Agent and the Fiscal Agent in writing as to which alternative course of action to adopt. If the Calculation Agent and the Fiscal Agent are not promptly provided with such direction, or is otherwise unable to make such calculation or determination for any reason, it shall notify the Issuer thereof and the Calculation Agent and the Fiscal Agent shall be under no obligation to make such calculation or determination and shall not incur any liability for not doing so.

- (C) (if no such customary usage is recognised or acknowledged) the Independent Adviser acting in good faith and a commercially reasonable manner determines, is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Benchmark Rate (as the case may be); or
- (D) (if no such industry standard is recognised or acknowledged) the Issuer, following consultation with the Independent Adviser and acting in good faith and a commercially reasonable manner, determines to be appropriate in order to reduce or eliminate, to the fullest extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Noteholders as a result of the replacement of the Original Reference Rate with the Successor Rate or Alternative Benchmark Rate (as the case may be);

“Alternative Benchmark Rate” means an alternative to the Original Reference Rate which the Independent Adviser and the Issuer acting in good faith and in a commercially reasonable manner agree in accordance with Condition 4(e)(ii) has replaced the Original Reference Rate in customary market usage in the international debt capital markets for the purposes of determining rates of interest (or the relevant component part thereof) for the same interest period and in the same Specified Currency as the Notes or, if the Independent Adviser and the Issuer acting in good faith and in a commercially reasonable manner agree there is no such rate, such other rate as the Independent Adviser and the Issuer acting in good faith and in a commercially reasonable manner agree is most comparable to the Original Reference Rate;

- (E) the later of (i) the making of a public statement by the supervisor of the administrator of the Original Reference Rate that means that such Original Reference Rate will be prohibited from being used or that its use will (on or before a specified date) be subject to restrictions or adverse consequences, in each case on or before a specified date and (ii) the date falling six months prior to the date specified in (i); or

## 5. PAYMENTS

### (a) *Method of payment*

Subject as provided below:

- (i) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Melbourne or Wellington, respectively); and
- (ii) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee.

Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions of Condition 7, and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the “Code”) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or (without prejudice to the provisions of Condition 7) any law implementing an intergovernmental approach thereto.

### (b) *Presentation of definitive Notes, Receipts and Coupons*

Payments of principal in respect of definitive Notes will (subject as provided below) be made in the manner provided in paragraph (a) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of definitive Notes, and payments of interest in respect of definitive Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)).

Fixed Rate Notes in definitive form (other than Long Maturity Notes (as defined below)) and save as provided in Condition 5(e) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of ten years after the Relevant Date (as defined in Condition 7) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 8) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note in definitive form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note or Long Maturity Note in definitive form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A "Long Maturity Note" is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note.

If the due date for redemption of any definitive Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant definitive Note.

(c) *Payments in respect of Global Notes*

Payments of principal and interest (if any) in respect of Notes represented by any Global Note will (subject as provided below) be made in the manner specified above in relation to definitive Notes or otherwise in the manner specified in the relevant Global Note where applicable against presentation or surrender, as the case may be, of such Global Note at the specified office of any Paying Agent outside the United States. On the occasion of each payment, (i) in the case of any Global Note which is not issued in new global note ("NGN") form, a record of such payment made on such Global Note, distinguishing between any payment of principal and any payment of interest, will be made on such Global Note by the Agent, and (ii) in the case of any Global Note which is an NGN, the Agent shall instruct Euroclear and Clearstream, Luxembourg to make appropriate entries in their records to reflect such payment.

(d) *Specific provisions in relation to payments in respect of certain types of Exempt Notes*

Payments of instalments of principal (if any) in respect of definitive Notes, other than the final instalment, will (subject as provided below) be made in the manner provided in Condition 5(a) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt in accordance with the preceding paragraph. Payment of the final instalment will be made in the manner provided in Condition 5(a) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Note in accordance with the preceding paragraph. Each Receipt must be presented for payment of the relevant instalment together with the definitive Note to which it appertains. Receipts presented without the definitive Note to which they appertain do not constitute valid obligations of the Issuer. Upon the date on which any definitive Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Upon the date on which any Dual Currency Note or Index Linked Note in definitive form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall

become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof.

(e) *General provisions applicable to payments*

The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the beneficial holder of a particular nominal amount of Notes represented by such Global Note must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the Issuer to, or to the order of, the holder of such Global Note.

Notwithstanding the foregoing provisions of this Condition, if any amount of principal and/or interest in respect of Notes is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of such Notes will be made at the specified office of a Paying Agent in the United States if:

- (i) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Notes in the manner provided above when due;
- (ii) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (iii) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

(f) *Payment Day*

If the date for payment of any amount in respect of any Note, Receipt or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes, "Payment Day" means any day which (subject to Condition 8) is:

- (i) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
  - (A) in the case of Notes in definitive form only, the relevant place of presentation; and
  - (B) in any Additional Financial Centre (other than T2) specified in the applicable Final Terms;
  - (C) if T2 is specified as an Additional Financial Centre in the applicable Final Terms, a day on which T2 is open; and
- (ii) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Melbourne or Wellington, respectively) or (2) in relation to any sum payable in euro, a day on which T2 is open.

(g) *Interpretation of principal and interest*

Any reference in these Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (i) any additional amounts which may be payable with respect to principal under Condition 7;
- (ii) the Final Redemption Amount of the Notes;
- (iii) the Early Redemption Amount of the Notes;
- (iv) the Optional Redemption Amount(s) (if any) of the Notes;
- (v) the Optional Redemption Amount (Clean-up call) of the Notes;
- (vi) in relation to Exempt Notes redeemable in instalments, the Instalment Amounts; and
- (vii) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

Any reference in these Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 7.

## **6. REDEMPTION AND PURCHASE**

(a) *Redemption at maturity*

Unless previously redeemed or purchased and cancelled as specified below, each Note will be redeemed by the Issuer at its Final Redemption Amount specified in the applicable Final Terms in the relevant Specified Currency on the Maturity Date specified in the applicable Final Terms.

(b) *Redemption for tax reasons*

Subject to obtaining any required prior written consent of the Relevant Regulator, as provided in Condition 6(j), the Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time (if this Note is not a Floating Rate Note) or on any Interest Payment Date (if this Note is a Floating Rate Note), on giving not less than the minimum period nor more than the maximum period of notice specified in the applicable Final Terms to the Agent and, in accordance with Condition 13, the Noteholders (which notice shall be irrevocable), if:

- (i) on the occasion of the next payment due under the Notes, the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 7 as a result of any change in, or amendment to, the laws or regulations of Norway or any authority therein having power to tax or any political subdivision thereof, or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first Tranche of the Notes;
  - (ii) such obligation cannot be avoided by the Issuer taking reasonable measures available to it; and
  - (iii) in case of Subordinated Notes, the effect of such obligation is material to the Issuer,
- ((i), (ii) and (as applicable) (iii) together, a “Tax Event”)

provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts were a payment in respect of the Notes then due.

Prior to the publication of any notice of redemption pursuant to this Condition, the Issuer shall deliver to the Agent to make available at its specified office to the Noteholders (i) a certificate signed by two Directors of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred, and (ii) an opinion of independent legal advisers of recognised standing to the effect that the Issuer has or will become obliged to pay such additional amounts as a result of such change or amendment.

Notes redeemed pursuant to this Condition 6(b) will be redeemed at their Early Redemption Amount referred to in paragraph (d) below together (if appropriate) with interest accrued to (but excluding) the date of redemption.

(c) *Redemption at the option of the Issuer (Issuer Call)*

Subject to obtaining any required prior written consent of the Relevant Regulator as provided in Condition 6(j), if Issuer Call is specified in the applicable Final Terms, the Issuer may, having given:

- (i) not less than 15 nor more than 30 days' notice to the Noteholders in accordance with Condition 13; and
- (ii) not less than 15 days before the giving of the notice referred to in (i), notice to the Agent,

(which notices shall be irrevocable and shall specify the date fixed for redemption), redeem all or some only of the Notes then outstanding on any Optional Redemption Date and at the Optional Redemption Amount(s) specified in, or determined in the manner specified in, the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date. Any such redemption must be of a nominal amount not less than the Minimum Redemption Amount or not more than a Maximum Redemption Amount, in each case as may be specified in the applicable Final Terms. In the case of a partial redemption of Notes, the Notes to be redeemed ("Redeemed Notes") will (i) in the case of Redeemed Notes represented by definitive Notes, be selected individually by lot, not more than 30 days prior to the date fixed for redemption and (ii) in the case of Redeemed Notes represented by a Global Note, be selected in accordance with the rules of Euroclear and/or Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion). In the case of Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 13 not less than 15 days prior to the date fixed for redemption.

(d) *Clean-up Call Option*

Subject to obtaining any required prior written consent of the Relevant Regulator as provided in Condition 6(j), if Clean-up Call Option is specified in the applicable Final Terms as being applicable and if, at any time (other than as a direct result of a redemption of some, but not all, of the Notes at a price greater than the aggregate nominal amount of the Notes at the Issuer's option pursuant to Condition 6(c)), the aggregate outstanding nominal amount of the Notes of the relevant Series is 20 per cent. (or such other amount as may be specified as the Clean-up Call Threshold in the relevant Final Terms) or less of the aggregate nominal amount of the Notes originally issued (and, for these purposes, any further Notes issued pursuant to Condition 15 and consolidated with the Notes as part of the same Series shall be deemed to have been originally issued), the Issuer may redeem all (but not some only) of the remaining outstanding Notes on any date (or, if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable, on any Interest Payment Date) upon giving not less than 15 nor more than 60 days' notice to the Holders (or such other notice period as may be specified in the relevant Final Terms) (which notice shall specify the date for redemption and shall be irrevocable), at the Optional Redemption Amount (Clean-up Call) (as specified in the relevant Final Terms) together with any accrued and unpaid interest up to (but excluding) the date of redemption.

(e) *Early Redemption Amounts*

For the purpose of paragraph (b) above and Condition 9:

- (i) Each Note (other than a Zero Coupon Note) will be redeemed at its Early Redemption Amount; and
- (ii) each Zero Coupon Note will be redeemed at its Early Redemption Amount calculated in accordance with the following formula:

where:

“RP” means the Reference Price;

“AY” means the Accrual Yield expressed as a decimal; and

“y” is the Day Count Fraction specified in the applicable Final Terms which will be either (i) 30/360 (in which case the numerator will be equal to the number of days (calculated on the basis of a 360-day year consisting of 12 months of 30 days each) from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 360) or (ii) Actual/360 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 360) or (iii) Actual/365 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 365,

(f) *Specific redemption provisions applicable to certain types of Exempt Notes*

Partly Paid Notes will be redeemed, whether at maturity, early redemption or otherwise, in accordance with the provisions of this Condition and the applicable Pricing Supplement.

(g) *Purchases*

Subject as provided in Condition 6(j) the Issuer or any Subsidiary of the Issuer may purchase Notes (provided that, in the case of definitive Notes, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased therewith) at any price in the open market or otherwise. Such Notes may be held, reissued, resold or, at the option of the Issuer, surrendered to any Paying Agent for cancellation.

(h) *Cancellation*

Subject as provided in Condition 6(j), all Notes which are redeemed will forthwith be cancelled (together with all unmatured Receipts, Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and any Notes purchased and cancelled pursuant to paragraph (g) above (together with all unmatured Receipts, Coupons and Talons cancelled therewith) shall be forwarded to the Agent and cannot be reissued or resold.

(i) *Late payment on Zero Coupon Notes*

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to paragraph (a), (b) or (c) or upon its becoming due and repayable as provided in Condition 9 is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as provided in paragraph (d)(ii) above as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and payable were replaced by references to the date which is the earlier of:

- (i) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (ii) five days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Notes has been received by the Agent and notice to that effect has been given to the Noteholders in accordance with Condition 13.

(j) *Consent*

No early redemption in any circumstances, purchase under Condition 6(g), substitution or variation under Condition 6(m) (in the case of Subordinated Notes) or substitution or variation under Condition 6(n) (in the case of Senior Preferred Notes and Senior Non-Preferred Notes) shall take place without the prior written consent of the Relevant Regulator (in each case as then required by the Relevant Regulator and, in the case of Senior Preferred Notes and Senior Non-Preferred Notes, by the Applicable MREL Regulations). In addition, in respect of any redemption of Subordinated Notes pursuant to Condition 6(b) or 6(k) only, and except to the extent the Relevant Regulator no longer so requires, the Issuer may only redeem the Subordinated Notes before five years after the Issue Date if the Issuer demonstrates to the satisfaction of the Relevant Regulator that the circumstance that entitles it to exercise such right of redemption was not reasonably foreseeable as at the Issue Date of the last Tranche of the Notes. For the avoidance of doubt, redemption of Notes under Condition 6(a) or repayment pursuant to Condition 9, shall not require the consent of the Relevant Regulator.

(k) *Redemption of Subordinated Notes upon Capital Event*

This Condition 6(k) applies only to Subordinated Notes and references to “Notes” and “Noteholders” in this Condition shall be construed accordingly.

Subject to obtaining the prior written consent of the Relevant Regulator as provided in Condition 6(j), if a Capital Event occurs, the Issuer may, at its option, on giving not less than 15 nor more than 30 days’ notice (or, if applicable, such other minimum period and maximum period of notice as specified in the applicable Final Terms or, as the case may be, the applicable Pricing Supplement) to the Agent and, in accordance with Condition 13, the Noteholders (which notice shall be irrevocable), on any Interest Payment Date redeem all (but not some only) of the Notes at the Early Redemption Amount referred to in Condition 6(d), together with interest accrued to (but excluding) the date of redemption. Upon the expiry of such notice, the Issuer shall redeem the Notes.

“Applicable Banking Regulations” means at any time the laws, regulations, requirements, guidelines and policies relating to capital adequacy then in effect in Norway including, without limitation to the generality of the foregoing, those regulations, requirements, guidelines and policies relating to capital adequacy adopted by the Norwegian Ministry of Finance and/or the Relevant Regulator from time to time and then in effect

(whether or not such requirements, guidelines or policies have the force of law and whether or not they are applied generally or specifically to the Issuer or to the Issuer and its subsidiaries).

A “Capital Event” means the determination by the Issuer, after consultation with the Relevant Regulator, that, as a result of a change in Norwegian law or Applicable Banking Regulations or any change in the official application or interpretation thereof becoming effective on or after the Issue Date of the last Tranche of the Notes, the Subordinated Notes are either partially or fully excluded from the Tier 2 Capital, such determination to be confirmed by the Issuer in a certificate signed by two authorised signatories of the Issuer.

(l) *Redemption of Senior Preferred Notes and Senior Non-Preferred Notes upon a MREL Disqualification Event*

This Condition 6(l) applies only to Senior Preferred Notes and Senior Non-Preferred Notes, and references to “Notes” and “Noteholders” in this Condition shall be construed accordingly.

Upon the expiry of such notice, the Issuer shall redeem the Notes.

Prior to the publication of any notice of redemption pursuant to this Condition, the Issuer shall deliver to the Agent to make available at its specified office to the Noteholders (i) a certificate signed by two authorised signatories of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred.

## **RISK AND CAPITAL MANAGEMENT**

SpareBank 1 SMN aims to maintain a moderate risk profile and to employ high quality risk monitoring to substantially reduce the chances of a single event seriously impairing SpareBank 1 SMN's financial position. SpareBank 1 SMN's risk profile is quantified through targets for rating, risk-adjusted return, expected loss, necessary economic capital and regulatory capital adequacy.

The principles underlying SpareBank 1 SMN's risk management are set out in SpareBank 1 SMN's risk management policy. SpareBank 1 SMN places much emphasis to identifying, measuring, managing and following up central risks to ensure that the SMN Group progresses in line with its adopted risk profile and strategies.

Risk management within the SMN Group is intended to support the SMN Group's strategic development and target attainment. The risk management regime is designed to ensure financial stability and prudent asset management. This will be achieved through:

- a strong organisational culture featuring a high level of risk-management awareness
- a sound understanding of the risks that drive earnings and risk costs, thereby creating an improved basis for decision-making
- striving for an optimal use of capital within the adopted business strategy
- Contingency plans are in place and will reduce the risk for unexpected negative events which could be detrimental to the SMN Group's operations and reputation in the market

Return on risk-adjusted capital is a key strategic target at SpareBank 1 SMN. It entails allocating capital to business areas based on the estimated risk attending the business concerned, and continuous monitoring of return on capital. Calculation of risk-adjusted capital makes it possible to compare risk across risk groups and business areas. Risk is also gauged and monitored by measuring positions relative to quantitative risk limits and key portfolio risk limits.

SpareBank 1 SMN applies a focused capital management process designed to ensure:

- effective capital procurement and capital application in relation to the SMN Group's strategic objectives and adopted business strategy
- satisfactory capital adequacy in relation to the chosen risk profile

- the SMN Group's ability to maintain at minimum its present international ratings
- utilisation of growth potentials in the SMN Group's defined market area

- that no individual events can seriously impair the SMN Group’s financial position

The SMN Group’s overall risk exposure and risk trend are monitored through periodic risk reports to the Administration and the Board of Directors. Overall risk monitoring and reporting are carried out by the Risk Management Division which is independent of the SMN Group’s business areas.

## MANAGEMENT AND THE BOARD OF DIRECTORS

In accordance with the Financial Undertakings Act, SpareBank 1 SMN has a two-tier board structure consisting of a Supervisory Board and Board of Directors. The figure below shows an overview of SpareBank 1 SMN’s management and control bodies:

In practice, a savings bank is a ‘self-owned’ institution. However, savings banks that have issued equity capital certificates (“EC”) will be partly owned by the EC holders. A savings bank’s governance structure and the composition of its governing bodies will to some extent differ from those of limited liability companies; see Chapter 8 of the Financial Undertakings Act which sets out the bodies which a savings bank must have – a “general meeting” - in SpareBank 1 SMN’s articles of association named “committee of representatives” - and a board of directors. SpareBank 1 SMN’s paramount body is the committee of representatives comprising EC holders, depositors, employees and representatives of the public authorities.

According to the Financial Undertakings Act, at least three quarters of the members shall be persons who are not employed by the institution. Emphasis shall be given to ensuring that the elected members in aggregate reflect the financial institution's customer structure and other stakeholder groups as well as its societal role, unless such interests are attended to by another overarching corporate body.

The committee of representatives ensures that SpareBank 1 SMN operates in line with its mission and in conformity with law, its articles of association and decisions of the committee of representatives.

At savings banks that have issued transferable ECs, at least one-fifth and not more than two-fifths of the members of the committee of representatives must be elected by the EC holders. The committee of representatives approves the SMN Group’s accounts, authorises the Board of Directors to raise subordinated capital and to undertake any increase of capital, and appoints the members of SpareBank 1 SMN’s Board of Directors and election committee. The committee of representatives also fixes the remuneration for the above bodies. The members of the Board of Directors, the Group CEO and the auditor are summoned to meetings of SpareBank 1 SMN’s committee of representatives. They may participate in the proceedings but are not entitled to vote. The chairman of the committee of representatives presides over the meeting, or in the latter’s absence, the deputy chairman.

The supervisory board currently has 32 members and 30 alternates with the following representation:

- EC holders: 12 members and 10 alternates
- the county councils of Trøndelag and Møre and Romsdal: 3 members with 3 alternates
- depositors: 9 members with 9 alternates
- employees: 8 members with 8 alternates

## BUSINESS DESCRIPTION OF SPAREBANK 1 ØSTLANDET

### OVERVIEW

SpareBank 1 Østlandet can trace its history back to 1845, when funds from local granaries, forest commons, local authorities and private individuals were pooled to establish the first savings bank that later became Sparebanken Hedmark and then SpareBank 1 Østlandet.

The bank came into being through a series of mergers between formerly independent savings banks in the former county of Hedmark. Altogether, 22 local savings banks have merged and evolved to become Hedmark's largest provider of external debt financing. Prior to 1 April 2017, the bank's name was Sparebanken Hedmark. It assumed its current name following the merger with Bank 1 Oslo Akershus AS ("B1OA") on 1 April 2017. The bank's head office is in Hamar, Norway.

In June 2006, SpareBank 1 Østlandet became part of the SpareBank 1 Alliance. The alliance has been a key factor in the development and offering of relevant products to the customers of SpareBank 1 Østlandet, enabling the combination of efficient operations and economies of scale with independent local banking operations.

In the autumn of 2011, the former Sparebanken Hedmark expanded into the neighbouring county of Oppland with branches in the cities of Gjøvik and Lillehammer. Following the merger with B1OA on 1 April 2017, SpareBank 1 Østlandet assumed its current name. With the expansion into Oslo and other parts of Akershus, SpareBank 1 Østlandet has become Norway's fourth largest savings bank group.

As at 31 December 2023, SpareBank 1 Østlandet has around 428,500 customers, 1,155 full time employees across 37 branches in the counties of Innlandet, Oslo and Akershus. Total assets, including loans transferred to SpareBank 1 Boligkreditt and SpareBank 1 Næringskreditt, were NOK 241 billion (EUR 21 billion)<sup>6</sup>.

In the autumn of 2016, the Ministry of Finance gave its approval for SpareBank 1 Østlandet, as the first bank in Norway, to pay out annual customer dividends based on its profits. The first qualifying year started 1 January 2017, and first payout was made in April 2018.

On 3 January 2024, SpareBank 1 Østlandet and Totens Sparebank signed and announced a letter of intent to merge the two banks and on 22 February 2024, the supervisory boards of both banks voted in favour of the merger. Completion of the merger is planned for the fourth quarter of 2024. The merger requires approval from the Norwegian Financial Supervisory Authority and the Norwegian Competition Authority. Totens Sparebank is a savings bank with the same business model as SpareBank 1 Østlandet and its size is equivalent to 10 per cent. of the balance sheet of SpareBank 1 Østlandet. Totens Sparebank's market area is adjacent to SpareBank 1 Østlandet, in the county of Innlandet.

SpareBank 1 Østlandet has an equity capital certificate structure with 70 per cent. of the capital owned via Oslo Stock Exchange. The rest of the capital is defined as primary capital and is self-owned. Approximately 85 per cent. of the equity for distribution is owned by investors within SpareBank 1 Østlandet's primary market area, which includes the counties of Innlandet, Oslo and Akershus. The largest shareholders are Sparebankstiftelsen Hedmark, a foundation which owns 52.15 per cent. of the shares, and Landsorganisasjonen Norge, a national trade union center which owns 9.6 per cent. of the shares. SpareBank 1 Østlandet is a savings bank incorporated and operating under the laws of Norway and is registered with the Norwegian Registry of Business Enterprises with organisation number 920 426 530. The address of its registered office is Strandgata 15, PO Box 203, N-2302 Hamar and the telephone number of its registered office is +47 915 02999. SpareBank 1 Østlandet is a credit institution licensed by the Ministry of Finance and supervised by the FSAN.

## TAXATION

The following is a general description of certain tax considerations relating to the Notes. It does not purport to be a complete analysis of all tax considerations relating to the Notes. Prospective purchasers of Notes should consult their tax advisers as to the consequences under the tax laws of the country in which they are resident for tax purposes and the tax laws of Norway and Luxembourg in respect of acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes. This summary is based upon the law as in effect on the date of this Prospectus and is subject to any change in law that may take effect after such date.

### **Norwegian Taxation**

#### *Non-resident holders of Notes*

##### *Taxation on Interest*

Interest paid to a non-resident holder of Notes will not be subject to Norwegian income tax. Such holder of Notes may, however, be subject to taxation if the holding of Notes is effectively connected with a business carried on by the holder of Notes in Norway or managed from Norway. Such tax liability may be modified through an applicable tax treaty.

Norway levies withholding tax at a 15 per cent. rate on certain interest payments from Norway. However, the withholding obligation applies only to interest payments made to related parties of the debtor who are resident in low tax jurisdictions (i.e. where the effective taxation is lower than 2/3 of what it would have been had the holder been resident in Norway). Due to the constitution of each Issuer as a Norwegian savings bank, and the fact that none of the Issuers has any ownership in non-Norwegian subsidiaries, each Issuer does not expect the withholding tax rules to apply to interest payments on Notes issued by each Issuer.

##### *Taxation of Capital Gains*

A non-resident holder of Notes is not taxed in Norway on gains derived from the sale, disposal or redemption of the Notes. Such holder of Notes may, however, be subject to taxation if the holding of Notes is effectively connected with a business carried on by the holder of Notes in Norway or managed from Norway. Such tax liability may be modified through an applicable tax treaty.

##### *Wealth Tax*

Norway does not levy any property tax or similar taxes on the Notes.

An individual non-resident holder of Notes is not subject to wealth tax, unless the holding of Notes is effectively connected with a business carried on by the holder of Notes in Norway or managed from Norway. Such tax liability may be modified through an applicable tax treaty. Limited liability companies and certain similar entities are exempt from net wealth taxation.

##### *Transfer Tax*

There is currently no Norwegian transfer tax on the transfer of Notes.

#### **Resident holders of Notes**

##### *Taxation of interest*

For both corporate and individual holders of Notes who are residents of Norway for tax purposes (“Norwegian holders”), interest on bonds (such as the Notes) is taxable as “ordinary income” subject to tax at a flat rate of currently 22 per cent. in the year of accrual. For financial service companies subject to the Norwegian financial tax (e.g. banks, insurance companies, investment companies etc.) the tax rate for

“ordinary income” is 25 per cent. For taxpayers with a statutory obligation to keep accounting records, interest is taxed on an accrual basis (i.e. regardless of when the interest is actually paid). For taxpayers without a statutory obligation to keep accounting records, accrued interest is, as a general rule, taxed when the interest is actually paid.

For Norwegian holders holding Notes issued with a discount (compared to the nominal value) such discount will be taxed in the year of the realisation of the Notes.

If the Notes are not listed in a regulated market within six months following issuance, Norwegian holders of Notes who are individuals resident in Norway for tax purposes will be subject to additional Norwegian taxes on the interest received at a flat tax rate of currently 22 per cent. The basis for the additional tax is equal to the interest accrued on the Notes reduced by the tax rate of 22 per cent. and less a risk free interest rate (“*skjermingsfradrag*”). The risk free interest rate is determined by the Norwegian Directorate of Taxes based on the interest rate published by Norges Bank on a bi-monthly basis. The basis for the taxable income is subject to an upwards adjustment factor of currently 1.72.

Any interest received in foreign currency is converted to Norwegian kroner when calculating the taxable interest income.

#### *Taxation of capital gains*

Redemption of the Notes, as well as prior disposal of the Notes, is treated as a realisation of such Notes and will trigger a capital gain or loss for Norwegian holders of Notes under Norwegian tax law. Capital gains will be taxable as “ordinary income”, subject to the flat rate of 22 per cent. (25 per cent. for financial service companies). Losses will be deductible from a Norwegian holder’s “ordinary income”, which is taxed at the same rate. Any capital gain or loss is calculated for each Note and is computed as the difference between the amount received by the Norwegian holder of Notes on realisation and the cost price of the Notes. The cost price is equal to the price for which the Norwegian holder acquired the Notes, including costs incurred in connection with the acquisition and realisation of the Notes. Any gain received in foreign currency when realising Notes is converted to Norwegian kroner when calculating the taxable gain.

#### *Net wealth taxation*

The value of the Notes held by a Norwegian holder who is an individual at the end of each income year will be included in the computation of his/her taxable net wealth for municipal and state net wealth tax purposes. Under Norwegian tax law, listed notes are valued at their listed value on 1 January in the relevant assessment year (i.e. the year following the relevant fiscal year). The marginal rate of net wealth tax is 1 per cent for net worth above a minimum threshold of NOK 1,700,000 and 1.1 per cent. for net worth above a minimum threshold of NOK 20,000,000.

Limited liability companies and certain similar entities are exempt from net wealth tax.

#### *Transfer taxes etc. and VAT*

No transfer taxes, stamp duty or similar taxes are currently imposed in Norway on purchase, disposal or redemption of securities such as the Notes. Furthermore, there will be no VAT payable in Norway on the transfer of the Notes.

### **Luxembourg Taxation**

The following information is of a general nature only and is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. The information contained within this section is limited to Luxembourg withholding tax issues and prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

(i) *Non-resident holders of Notes*

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to non-resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by non-resident holders of Notes.

(ii) *Resident holders of Notes*

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005 as amended (the “Relibi Law”) mentioned below, there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Notes, nor on accrued but unpaid interest in respect of Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Notes held by Luxembourg resident holders of Notes.

Under the Relibi Law payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is resident in Luxembourg will be subject to a withholding tax of currently 20 per cent. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Accordingly, payments of interest under the Notes coming within the scope of the Relibi Law will be subject to a withholding tax at a rate of currently 20 per cent.

### **The proposed financial transactions tax (“FTT”)**

On 14 February 2013, the European Commission published a proposal (the “Commission’s Proposal”) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the “participating Member States”). However, Estonia has since stated that it will not participate.

The Commission’s Proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are expected to be exempt.

Under the Commission’s Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, “established” in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

## Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a **foreign financial institution** (as defined by FATCA) may be required to withhold on certain payments it makes (**foreign passthru payments**) to persons that fail to meet certain certification, reporting or related requirements. The issuer may be a foreign financial institution for these purposes. A number of jurisdictions (including Norway) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (**IGAs**), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as Notes, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining foreign passthru payments are published generally would be grandfathered for purposes of FATCA withholding unless materially modified after such date. However, if additional Notes (as described under "*Terms and Conditions—Further Issues*") that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisers regarding how these rules may apply to their investment in Notes.

## SUBSCRIPTION AND SALE

The Dealers have, in a programme agreement (such agreement, as amended and/or supplemented and/or restated from time to time, the “Programme Agreement”) dated 21 June 2024, agreed with each Issuer a basis upon which they or any of them may from time to time agree to purchase Notes. Any such agreement will extend to those matters stated under “*Form of the Notes*” and “*Terms and Conditions of the Notes*”. In the Programme Agreement, each Issuer has agreed to reimburse the Dealers for certain of their expenses in connection with the establishment of the Programme and the issue of Notes under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith.

### *United States*

The Notes have not been and will not be registered under the Securities Act or the securities laws of any state or other jurisdiction of the United States and may not be offered or sold within the United States or, if Category 2 is specified in the Final Terms, to, or for the account or benefit of, U.S. persons except in certain transactions exempt from or not subject to, the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

The Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and Treasury regulations promulgated thereunder. The applicable Final Terms (or Pricing Supplement, in the case of Exempt Notes) will identify whether TEFRA C rules or TEFRA D rules apply or whether TEFRA is not applicable.

If Category 2 is specified in the Final Terms each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver Notes (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of all Notes of the Tranche of which such Notes are a part, within the United States or to, or for the account or benefit of, U.S. persons except in accordance with Regulation S of the Securities Act. Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Accordingly, if Category 1 is specified in the Final Terms the Notes are being offered and sold only outside the United States in offshore transactions in reliance on, and in compliance with, Regulation S.

Until 40 days after the commencement of the offering of any Series of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Each issuance of Exempt Notes which are also Index Linked Notes or Dual Currency Notes shall be subject to such additional U.S. selling restrictions as the relevant Issuer and the relevant Dealer may agree as a term of the issuance and purchase of such Notes, which additional selling restrictions shall be set out in the applicable Pricing Supplement.

### **Dealers Transacting with the Issuer**

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for the Issuers and their affiliates in, the ordinary course of business. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuers or Issuers' affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuers routinely hedge their credit exposure to the Issuers consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such short positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.
